7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Arroya Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

CC Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

CC Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Arroya Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the NE ¼ NE ¼ of Section 12, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 53.12 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

__X__ Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
36	53.12

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 35 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious

depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

_____

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to

retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any

other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023, between the Capulin Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

✓ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

✓ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Capulin Ditch and the water rights decreed thereto. The Capulin Ditch diverts water from the Alamosa River in the SW1/4 SE1/4 of Section 9, Township 35 North, Range 9 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 31.37 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Alamosa River at the headgate of the Ditch under priority nos. 10 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly

stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
10	31.37

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Caplin Ditch Co
395 First St.
Sanford, CO 81151

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into, effective May 1, 2026, between the Clark Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, acting as a Water Activity Enterprise (sometimes collectively referred to as the "Parties").

Please initial next to your selections:

ES Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

ES Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Clark ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the SE¼ SW¼ of Section 4, T35N, R4E, N.M.P.M., in Conejos County and has decreed priorities totaling 6.75 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through its Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that the ARP covers. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April, 2031)

__X__ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to ALC acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement

water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount
58	6.75

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Silva Farm & Ranch, LLC / Clark Ditch

[redacted]

To the Subdistrict:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of the Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict before the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and

understandings, written or oral, with respect to the subject matter. Except for those that are outlined in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Cottonwood Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__C__ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

__C__ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Cottonwood Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the NW ¼ NW ¼ of Section 12, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 35.70 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

__X__ Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
44	8.46
55	5.65
82	21.59

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 40 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious

depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Cotton wood Ditch Co

[redacted]

Robert Horton

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to

retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any

other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Cristobal Rivera Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

AT Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

AT Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Cristobal Rivera Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the NE ¼ SE ¼ of Section 9, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 7.08 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

__X__ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
15	7.08

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 50 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

_____

_____

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the

Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the

total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the El Viejo Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

AT Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

AT Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the El Viejo Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the NE ¼ NW ¼ of Section 1, T35N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 14.4 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

47 Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
1	14.4

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 50 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

_____

_____

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the

Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the

total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Commonwealth Irrigation Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JC Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

JC Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Empire Canal ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the SE ¼ NE ¼ of Section 2, T35N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 85.0 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

LC Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
105	85.0

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 20.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious

depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Commonwealth Irrigation Company
P.O. Box 993
Alamosa, CO 81101

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Flintham Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

__X__ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Flintham Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the NE ¼ SE ¼ of Section 10, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 27.125 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

__X__ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
45	2.225
69	24.9

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $\$ __1__$ per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Flintham Ditch
[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. 7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023, between the Gabino Gallegos Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

LU Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

LU Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Gabino Gallegos Ditch and the water rights decreed thereto. The Gabino Gallegos Ditch diverts water from the Alamosa River in the SW1/4 SW1/4 of Section 6, Township 35 North, Range 8 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 33.00 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

XX Ten Years (May 1, 2023 through April 30, ~~3033~~ 2033 XX)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Alamosa River at the headgate of the Ditch under priority nos. 11 and 113 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly

stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
11	13.00
113	20.00

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Company $ 30 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $ 30 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is

not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: [redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023, between the owners of the Gallegos D3 Ditch ("Owners") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

TRL Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

TRL Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Owners own and operate the Gallegos D3 Ditch ("Ditch") and the water rights decreed thereto. The Gallegos D3 Ditch diverts water from the Alamosa River in the SW1/4 SW1/4 of Section 3, Township 35 North, Range 9 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 14.94 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Owners are willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Owners' water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Owners agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

 Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Owners.

2.1. During the term of this Agreement, the Owners will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Alamosa River at the headgate of the Ditch under priority no. 46 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Owners and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating

under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
46	14.94

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Owners $65.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Owners $65.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Owners with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Owners; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Owners will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Owners with an accounting of the unreplaced injurious depletions to the water rights of the Owners and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Owners under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Owners will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Owners will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Owners: Francis R. Gallegos [redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Owners' default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Owners' remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owners and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Owners may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Owners, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Owners in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Owners on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Garcia No. 2 ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

__X__ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Garcia No. 2 ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the SW ¼SE ¼ of Section 9, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 5.54 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

__X__ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
13	5.54

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $70.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the

payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: _____

_____

_____

_____

_____

_____

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or

delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023, between the owners of the Head Overflow No. 5 Ditch ("Owner") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

__X__ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Owners owns and operate the Head Overflow No. 5 Ditch ("Ditch") and the water rights decreed thereto. The Head Overflow No. 5 Ditch diverts water from the Alamosa River in the SW1/4 SW1/4 of Section 36, Township 36 North, Range 9 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 155.725 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Owners are willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Owners' water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Owners agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

E.G. MB J.S. Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Owners.

2.1. During the term of this Agreement, the Owners will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Alamosa River at the headgate of the Ditch under priority no. 13 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Owners and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating

under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
27	49.8
60	16.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Owners $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Owners $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Owners with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Owners; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Owners will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Owners with an accounting of the unreplaced injurious depletions to the water rights of the Owners and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Owners under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Owners will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Owners will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Owners:

_____

_____

_____

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Owners' default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Owners' remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owners and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Owners may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Owners, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Owners in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Owners on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Lowland Overflow Ditch Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

DLM Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

DLM Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Lowland Overflow Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the SE ¼ SW ¼ of Section 36, T36N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 111.94 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

DCM Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to N/A DCM _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
57	14.94
71	55.00
71	42.00

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $5.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious

depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Lowland Overflow Ditch Company
c/o Dwight Martin
[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance,

and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Miller Ditch-Alamosa ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

_____ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

_____ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Miller Ditch-Alamosa ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the NW ¼ SW ¼ of Section 8, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 74.874 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

JJH/JL Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to ~~2.4~~ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals ~~6.22~~ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)	% Owned
17	6.224	25%
24	2.25	25%

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 70.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Ivan Hunter
[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Miller Ditch-Alamosa ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

__X__ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Miller Ditch-Alamosa ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the NW ¼ SW ¼ of Section 8, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 74.874 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

QM Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)	% Owned
17	6.224	75%
24	2.25	75%

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $50__ per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Dennis Mortensen
[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023, between the owner of the Miller Ditch-Alamosa ("Owner") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

X Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

X Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Owner owns and operates the Miller Ditch-Alamosa ("Ditch") and the water rights decreed thereto. The Miller Ditch-Alamosa diverts water from the Alamosa River in the NW1/4 SW1/4 of Section 8, Township 35 North, Range 8 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 74.874 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Owner is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Owner's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Owner agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

__X__ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Owner.

2.1. During the term of this Agreement, the Owner will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Alamosa River at the headgate of the Ditch under priority nos. 17, 24, 70 and 75 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Owner and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating

under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
70	34.86
75	31.54

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Owner $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Owner $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Owner with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Owner; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Owner will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Owner with an accounting of the unreplaced injurious depletions to the water rights of the Owner and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Owner under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Owner will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Owner will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Owner: Bob PeTerson / Miller Ditch

[redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Owner's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Owner's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owner and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Owner may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Owner, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Owner in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Owner on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into, effective May 1, 2026, between the Morganville Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, acting as a Water Activity Enterprise (sometimes collectively referred to as the "Parties").

Please initial next to your selections:

JDC Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

JDC Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Gabriel Martinez Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the SW¼ NW¼ of Section 33, T33N, R8E, N.M.P.M., Conejos County, and has decreed priorities totaling 3.71 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

JDC Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount
73	20.75

On such days the amount of water that the Subdistrict must provide to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $5.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement..

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Morganville Ditch Company
[redacted]

To the Subdistrict:

Deputy District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of the Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict before the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are outlined in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the owner of a portion of the Norland Ditch ("Owner") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JL Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

JL Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Owner owns and operates a portion of the Norland Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the SW ¼ NE ¼ of Section 7, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 48.56 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Owner is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Owner's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Owner agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

__X__ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Owner.

2.1. During the term of this Agreement, the Owner will forebear from requiring the Subdistrict to replace up to _____ acre-feet of injurious stream depletions to the water rights of the Owner diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Owner and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)	% of Priority Being Forbore
68	48.56	70%

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Owner $ 5 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Owner with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Owner will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Owner with an accounting of the unreplaced injurious depletions to the water rights of the Owner and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Owner under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Owner will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Owner will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Owner: Gerald Fancette

[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Owner's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Owner's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Owner for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Owner or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owner and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Owner may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Owner, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Owner and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Owner on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023, between the owner of a portion of the Norland Ditch ("Owner") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

ZM Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

ZM Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Owner owns a portion of the Norland Ditch ("Ditch") and the water rights decreed thereto. The El Viejo Ditch diverts water from the Alamosa River in the SW1/4 NE1/4 of Section 7, Township 35 North, Range 8 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 48.56 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Owner is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Owner's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Owner agrees as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

3M Ten Years (May 1, 2023 through April 30, 2033) 2 2M

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. **Forbearance by the Owner.**

2.1. During the term of this Agreement, the Owner will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Alamosa River at the headgate of the Ditch under priority no. 68 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Owner and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)	% of Priority Being Forbeared
68	48.56	30%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Owner $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Owner $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Owner with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Owner; and (2) a calculation of the amount of the payment

due under paragraph 3.2 below. The Owner will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Owner with an accounting of the unreplaced injurious depletions to the water rights of the Owner and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Owner under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Owner will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Owner will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Owner:

ZACHARIAH MUNIZ

[redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Owner's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Owner's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to

require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owner and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Owner may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Owner, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Owner in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Owner on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023, between the North Alamosa Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

LV Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

LV Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the North Alamosa Ditch and the water rights decreed thereto. The North Alamosa Ditch diverts water from the Alamosa River in the SW1/4 SW1/4 of Section 6, Township 35 North, Range 9 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 63.09 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

ZU Ten Years (May 1, 2023 through April 30, ~~2033~~ 2023 ZU

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Alamosa River at the headgate of the Ditch under priority nos. 40, 74 and 77 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly

stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
40	22.41
74	25.85
77	14.83

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Company $ 1.00 - One - Dollar Even per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $ 1.00 - One - Dollar Even per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: North Alamosa Ditch
[redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023, between the Ortiz Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

AV Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

AV Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Ortiz Ditch and the water rights decreed thereto. The Ortiz Ditch diverts water from the Alamosa River in the NW1/4 SW1/4 of Section 10, Township 35 North, Range 8 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 14.02 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

AV Ten Years (May 1, 2023 through April 30, ~~3033~~) 2033 – AC

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Alamosa River at the headgate of the Ditch under priority no. 32 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly

stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
32	14.02

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Company $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is

not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Ortiz Ditch
[redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023, between the owners of the Ramona Ditch ("Owner") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

✓ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

✓ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Owners own and operate the Ramona Ditch ("Ditch") and the water rights decreed thereto. The Ramona Ditch diverts water from the Alamosa River in the SE1/4 SE1/4 of Section 8, Township 35 North, Range 8 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 9.85 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Owners are willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Owners' water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Owners agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

__✓__ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Owners.

2.1. During the term of this Agreement, the Owners will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Alamosa River at the headgate of the Ditch under priority no. 26 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Owners and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream

depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
26	9.85

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Owners $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Owners $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Owners with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Owners; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Owners will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Owners with an accounting of the unreplaced injurious depletions to the water rights of the Owners and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Owners under this Agreement is not a subordination of its water rights to any junior water rights, and is

not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Owners will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Owners will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Owners: Phil Cruciotto
Joe I Valley

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Owners' default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Owners' remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owners and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Owners may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Owners, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Owners in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Owners on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the San Jose Ditch No. 1 ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

V Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

V Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the San Jose Ditch No. 1 ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the NE ¼ SW ¼ of Section 8, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 4.166 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
17	4.166

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 50 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious

depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

_____

_____

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to

retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any

other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Scandinavian Canal ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

X Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

X Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Scandinavian Canal ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the NE ¼ SE ¼ of Section 10, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 43.58 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

X Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
84	43.58

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $\$ 1$ per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Scandinavian Canal
[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and

understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2025 between the Terrace Irrigation Company, Inc. ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

KR Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

KR Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates Terrace Reservoir, the Terrace Main Canal and the Alamosa Creek Canal and the water rights decreed thereto, and also owns a portion of the water right decreed to the Gabino Gallegos Ditch stored in Terrace Reservoir. The inlet for Terrace Reservoir on the Alamosa Reservoir is located in the NW1/4SW1/4 of Section 8, Township 36 North, Range 6 East, N.M.P.M., in Conejos County, and is decreed for storage of 17,171 acre-feet per year. That is the same location for storage of the Company's interest in the Gabino Gallegos Ditch decreed for storage at a rate up to 0.422 c.f.s. and a volume or 23.85 acre-feet per year. The Terrace Main Canal diverts water from the Alamosa River in the SE1/4 SW1/4 of Section 28, Township 36 North, Range 7 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 142.03 c.f.s. The Alamosa Creek Canal diverts water from the Alamosa River in the NE1/4 SE1/4 of Section 1, Township 35 North, Range 7 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 78.7 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions. This Agreement does not apply to any other water rights stored in Terrace Reservoir or diverted through the Company's canals by agreement with other people or entities who are not a party to this Forbearance Agreement.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2025 through April 30, 2026)

_____ Three Years (May 1, 2025 through April 30, 2028)

KR Five Years (May 1, 2025 through April 30, 2030)

_____ Ten Years (May 1, 2025 through April 30, 2035)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to ~~700~~ KR NO LIMIT acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in

their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals No Limit acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Gabino Gallegos Ditch

Priority No.	Amount (c.f.s.)
11	0.422

Terrace Main Canal

Priority No.	Amount (c.f.s.)
2	2.0
8	5.2
14	2.0
37	2.0
39	10.84
45	7.12
76	21.87
112	91

Alamosa Creek Canal

Priority No.	Amount (c.f.s.)
1	4.8

3	2.85
15	3.0
37	2.0
71	10.0
76	30.0
85	26.05

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 5.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through

U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Terrace Irrigation Company, Inc.
P.O. Box 109
Monte Vista, CO 81144

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the

Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023, between the T. K. Walsh Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

AV Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

AV Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the T. K. Walsh Ditch and the water rights decreed thereto. The T. K. Walsh Ditch diverts water from the Alamosa River in the SW1/4 NW1/4 of Section 11, Township 35 North, Range 8 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 4.51 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

AV Ten Years (May 1, 2023 through April 30, ~~3033~~ 2033 - AV

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Alamosa River at the headgate of the Ditch under priority nos. 37 and 45 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly

stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
37	2.93
45	1.58

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Company $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $ 70 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: TK Walsh Ditch

[redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the The New Union Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

CC Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

CC Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Union Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the NE ¼ SE ¼ of Section 10, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 30.32 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

__X__ Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
38	14.13
62	27.21
67	28.15

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 35 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious

depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

_____

_____

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to

retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any

other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Valdez Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

RP Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

RP Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Valdez Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the SW ¼ SE ¼ of Section 27, T36N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 71.18 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

AP Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to N A acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals NA acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)	% owned
9	13.55	7.47%

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 40 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Randy Porco

[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into, effective May 1, 2026, between the Weist Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties").

Please initial next to your selections:

ES Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

ES Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Weist ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Alamosa River in the SE¼ SW¼ of Section 4, T35N, R9E, N.M.P.M., Conejos County, and has decreed priorities totaling 3.95 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through its Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Alamosa River by the Ditch may be reduced by the stream depletions caused by wells that the ARP covers. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

~~X~~ Five Years (May 1, 2026 through April, 2031)

I SX Ten Years (May 1, 2026 through April 30, 2036)

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to ALL acre-feet of injurious stream depletions to the water rights of the Company diverted from the Alamosa River at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month by the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount
74	3.95

On such days the amount of water that the Subdistrict must provide to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $75 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their 2020 Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Silva Farm & Ranch LLC / Weist Ditch

[redacted]

To the Subdistrict:

Deputy District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of the Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict before the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are outlined in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the A.D. Archuleta Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

___ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

___ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the A.D. Archuleta Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SW ¼ NW ¼ of Section 20, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 19.31 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

__X__ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to _all_ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
37	1.00
60	10.31
96	8.00

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $\$ 7$ per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious

depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Alpha Hay Farm LLC

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance,

and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Willett Dairy Farm and Cattle Company ("Company") and the Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict") of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

RECITALS

A. The Company owns and operates the Alamo Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SW ¼ SE ¼ of Section 12, T35N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 52.00 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

___X_ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. *The canceling party must provide at least 3 years notice prior to the date they want the* Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of *the Company diverted from the Conejos River at the headgate of the Ditch under priority nos.* listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as

contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)	% of Priority Forbore
108	23.96	66.5%
137	16.00	100%

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $65.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Willett Cattle Co.

[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made

again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement.

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between Special Improvement Districts No. 3 (Conejos) and No. 6 (Alamosa-La Jara) of the Rio Grande Water Conservation District Water Activity Enterprises ("Subdistricts") and the United States Department of the Interior, Bureau of Land Management ("Agency"), (sometimes collectively referred to as the "Parties").

RECITALS

A. AGENCY is the Bureau of Land Management, an agency within the United States Department of the Interior. AGENCY owns and operates surface water rights that are used to carry out land and water management functions that are required under federal law, including management of habitat for wildlife species. AGENCY water rights that are used to fulfill these management purposes were created and decreed pursuant to provisions of Colorado water law. AGENCY owns and operates the following surface water rights, (collectively "Ditches"):

a. 3.5 c.f.s. of the East Bend Ditch Priority No. 88. The East Bend Ditch diverts water from the Conejos River in the SE1/4 SW1/4 of Section 34, Township 35 North, Range 10 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 37.4 c.f.s.

b. 6.58 c.f.s. of the Los Ojos No. 1 Ditch Priority No. 63. The Los Ojos No. 1 Ditch diverts water from the Conejos River in the SW1/4 SE1/4 of Section 22, Township 35 North, Range 10 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 40.08 c.f.s.

c. 3.00 c.f.s. of the Los Ojos No. 2 Ditch Priority No. 58. The Los Ojos No. 2 Ditch diverts water from the Conejos River in the NE1/4 NW1/4 of Section 23, Township 35 North, Range 10 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 8.53 c.f.s

d. 12.04 c.f.s. of the Alamo Ditch Priority No. 108. The Alamo Ditch diverts water from the Conejos River in the SW1/4 SE1/4 of Section 12, Township 35 North, Range 10 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 53.5 c.f.s

e. 4.00 c.f.s. of the Lovato Irrigation Ditch Priority No. 33. The Lovato Irrigation Ditch diverts water from the Rio San Antonio in the NW1/4 SW1/4 of Section 30, Township 33 North, Range 10 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 53.08 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio San Antonio and Conejos River by the Ditches may be reduced by the stream depletions caused by wells that are

covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditches at the top of the Stream Reach in order to remedy injurious stream depletions.

D. AGENCY, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to AGENCY's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The District, on behalf of the Subdistricts, desires to enter into this Forbearance Agreement as part of the ARPs.

DEFINITIONS

A. "Remedy Costs" means the total cost to Subdistrict No. 3 and Subdistrict No. 6 for providing augmentation water to offset injurious depletions associated with the operation of AGENCY groundwater rights, including costs associated with meeting the Subdistrict No. 3 and Subdistrict No. 6 sustainability requirements under their Annual Plans of Water Management.

B. "Remedy Credits" means the value assigned to the injurious depletions not required to be made available for diversion by the AGENCY'S Ditch water right. "Remedy Credits" are calculated by multiplying the number of acre-feet of injurious stream depletions that are not required to be made available for diversion to the AGENCY'S Ditches by the Forbearance Rate.

C. "Forbearance Rate" means $80.00 per acre foot.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the District and the Subdistricts and the Company agree as follows:

Term of Agreement. This Agreement will be in effect from:

Five Years (May 1, 2023 through April 30, 2028)

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

1. Forbearance by the AGENCY.

1.1. During the term of this Agreement AGENCY will forebear from requiring Subdistrict No. 3 and Subdistrict No. 6 to replace any of the injurious stream depletions to the Ditches. Subdistrict No. 3 and Subdistrict No. 6 may remedy injurious stream depletions under this agreement or by providing water in its sole discretion.

1.2. This Agreement applies on each day during the term of the Agreement that any of the Ditches are the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

1.3. The number of acre-feet of injurious depletions to the water right of AGENCY will be calculated each day any of the Ditches is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both AGENCY and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that any of the Ditches would have been able to divert, but for the depletions caused by wells operating under Subdistricts' respective ARPs. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to a Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

1.4. This Agreement will apply only on days when the following priorities decreed to a Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Alamo Ditch

Priority No.	Amount (c.f.s.)	Total c.f.s. of Priority	% of Priority Agency Owns
108	12.04	36.0	33.44%

East Bend Ditch

Priority No.	Amount (c.f.s.)	Total c.f.s. of Priority	% of Priority Agency Owns
88	3.5	12.0	29.17%

Los Ojos Ditch No. 1			
Priority No.	**Amount (c.f.s.)**	**Total c.f.s. of Priority**	**% of Priority Agency Owns**
63	6.58	40.08	16.42%

Los Ojos Ditch No. 2			
Priority No.	**Amount (c.f.s.)**	**Total c.f.s. of Priority**	**% of Priority Agency Owns**
58	3.0	4.45	67.42%

Lovato Ditch			
Priority No.	**Amount (c.f.s.)**	**Total c.f.s. of Priority**	**% of Priority Agency Owns**
33	4.0	27.58	14.50%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the AGENCY is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow any of the Ditches to divert the full amount of last priority served on that day.

2.5 This Agreement will apply to only those portions of the entire priorities listed in paragraph 2.4 above that are owned by the Agency. The Agency agrees it will not take or use additional water above the c.f.s. the Agency owns as listed in 2.4 above that is subject to this Agreement. The Agency acknowledges that neither the Division Engineer nor the Subdistrict(s) have any responsibility for distribution of water within the Ditch. If operation of this Agreement results in injury to the remaining c.f.s. of the Ditch, the Division Engineer may require that the Subdistrict not operate this Agreement and remedy all injurious depletions by providing water at the top of the affected Stream Reach.

2. Payment. The Subdistricts will pay the AGENCY in Remedy Credits per acre-foot of replacement of injurious stream depletions that are not required to be made available for diversion at the Ditches pursuant to the terms of this Agreement.

2.1. After the end of each irrigation season, and not later than March 15, of the following calendar year, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then recalculate the amount of water that each of the Ditches would have been able to divert if all unreplaced injurious depletions to a Ditch had been replaced during the term of this Agreement, and provide AGENCY with (1) a full accounting showing the unreplaced injurious depletions to the water rights of any of the Ditches; and (2) a calculation of the amount of the payment due under

paragraph 3.2 below. AGENCY will have fourteen days after the receipt of the calculations to notify the Subdistrict(s) of any errors therein.

2.2. The payment required by paragraph 3, will be due within 35 days of the date that the Subdistricts provide AGENCY with an accounting of the unreplaced injurious depletions to the water rights of AGENCY and the amount of the payment due, but not later than April 15 of each year and will be in the form of Remedy Credits.

3. No Subordination or Waiver of Right to Call. The forbearance by AGENCY under this agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on AGENCY. Under this Agreement AGENCY will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement AGENCY will not require the Subdistricts to make water available for diversion at the headgate of AGENCY to offset depletions that would otherwise have to be replaced by the Subdistricts under their respective ARPs.

4. Notices and Representatives: Each individual identified below is a representative of the designating Party. All notices required by this Lease Agreement will be hand-delivered with receipt required or sent by certified or registered mail to such Party's representative at the address set forth below. In addition to, but not in lieu of a hard-copy notice, notice may also be sent by e-mail to the e-mail addresses set forth below. Either Party may designate by written notice substitute addresses or persons to whom such notices will be sent. Unless otherwise provided herein, all notices are effective upon receipt.

5.1 AGENCY Representatives and Contact Addresses: David Thomas, Contracting Officer, is authorized to sign the lease agreement and participation contract. Mr. Thomas can be reached by physical mail at: Bureau of Land Management, Colorado State Office, Denver Federal Center, Building 40, Lakewood, CO 80215 ; by telephone at 303-239-3637; and by email at dethomas@blm.gov. Roy Smith, Water Rights Specialist, is authorized to manage the day-to-day administration of the lease and participation contract. Mr. Smith can be reached by physical mail at: Bureau of Land Management, Colorado State Office, Denver Federal Center, Building 40, Lakewood, CO 80215 ; by telephone at 303-239-3940; and by email at r20smith@blm.gov.

5.2 Subdistrict No. 3 and Subdistrict No. 6 Representative and Contact Address: District Manager (Cleave Simpson) is the representative for Subdistrict No. 3 and Subdistrict No. 6 for purposes of this Lease Agreement. Mr. Simpson can be reached by physical mail at: Rio Grande Water Conservation District, 8805 Independence Way, Alamosa, Colorado 81101; by telephone at: (719) 589-6301; and by e-mail at: cleave@rgwcd.org.

5. Remedies. In the event of AGENCY's default in the performance of this Agreement, the District's and/or Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, AGENCY's remedies will be to retain all payments made by the District on behalf of the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay AGENCY for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

6. General Provisions

6.1. Assignment: Neither Party has the right to transfer or sub-lease its rights or obligations under this Lease Agreement without the advanced written consent of the other Party.

6.2. Binding Agreement: This Lease Agreement binds and benefits the Parties and their respective successors and assigns.

6.3. Binding Arbitration Prohibited: Neither AGENCY nor Subdistrict No. 3 nor Subdistrict No. 6 agree to binding arbitration by any extra-judicial body or person. Any provision incorporated herein by reference is null and void.

6.4. Captions: The captions and headings in the Lease Agreement are for convenience of reference only and will not be used to interpret, define, or limit its provisions.

6.5. Compliance with Applicable Laws: At all times during the performance of this Lease Agreement, Subdistrict No. 3 and Subdistrict No. 6 will adhere to all applicable Federal and State laws, rules, and regulations then in effect. In addition:

6.5.1. The signatories to this Lease Agreement affirm that they are familiar with C.R.S. § 18-8-301, *et seq.* (Bribery and Corrupt Influences) and C.R.S. § 18-8-401, *et seq.* (Abuse of Public Office), and that no violation of such provisions has occurred in connection with the negotiation and signing of this Lease Agreement; and

6.5.2. The signatories to this Lease Agreement affirm that to the best of their knowledge, no State employee has any personal or beneficial interest whatsoever in the service or property described herein.

6.6. CORA Disclosure: To the extent not prohibited by Federal law, this Lease Agreement and the performance measures and standards under C.R.S. §

24-103.5-101, if any, are subject to public release through the Colorado Open Records Act, C.R.S. § 24-72-101, *et seq.*

6.7. Entire Understanding: This Lease Agreement represents the complete integration of all understandings between the Parties and all prior representations and understandings, oral or written, are merged herein. Prior or contemporaneous additions, deletions, or other changes hereto will not have any force or effect whatsoever, unless embodied herein.

6.8. Governing Law and Venue: This Lease Agreement will be governed and enforced in accordance with the laws, and rules and regulations issued pursuant thereto, of the State of Colorado and under applicable Federal Law. Any provision included or incorporated herein by reference which conflicts with said laws, rules, and regulations will not be valid, enforceable, or available in any action at law, whether by way of complaint, defense, or otherwise. Venue for any action regarding water matters under this lease agreement will be in either the District Court for Alamosa County, Colorado or Water Court in and for Water Division No. 3, as appropriate. Otherwise, for contract disputes, Federal Law applies. Venue for contract matters will be determined by the Contract Disputes Act of 1978, 41 U.S.C. §§ 7107-7109.

6.9. Governmental Immunity: No term or condition in this Lease Agreement will be construed or interpreted as a waiver, express or implied, of any of the immunities, rights, benefits, protections, or other provisions of the Colorado Governmental Immunity Act, C.R.S. § 24-10-101, *et seq.*, or the Federal Tort Claims Act, 28 U.S.C. §§ 1346(b) and 2671, *et seq.*, as applicable now or hereafter amended. Liability for claims for injuries to persons or property arising from the negligence of the State of Colorado, its departments, institutions, agencies, boards, officials, and employees is controlled and limited by the provisions of the Governmental Immunity Act, C.R.S. § 24-10-101, *et seq.* and the risk management statutes, C.R.S. § 24-30-1501, *et seq.*, as amended. Liability for claims for injuries to persons or property arising from the negligence of the Federal Government, its departments, institutions, agencies, boards, officials, and employees is controlled and limited by the provisions of the Federal Tort Claims Act, 28 U.S.C. §§ 1346(b) and 2671, *et seq.*

6.10. Legal Counsel: Each Party to this Lease Agreement has engaged legal counsel to negotiate, draft, or review this Lease Agreement. Therefore, in the construction and interpretation of this Lease Agreement, the Parties acknowledge and agree that it will not be construed against any Party on the basis of authorship.

6.11. Litigation Reporting: Within ten (10) days after being served with any pleading in a legal action filed with a court or administrative agency related to this Lease Agreement or which may affect a Party's ability to comply with the terms and conditions of this Lease Agreement, the Party who is in receipt of the served pleading will notify the other Party of such action and deliver copies of such pleadings to the other Party, as set forth in paragraph 7 of this Lease Agreement.

6.12. Modification:

6.12.1. By the Parties: Except as specifically provided in the Lease Agreement, modifications hereof will not be effective unless agreed to by the Parties in a written amendment hereto.

6.12.2. By Operation of Law: This Lease Agreement is subject to such modifications as may be required by changes in Federal law or Colorado State law, or their implementing regulations. Any such required modification will be automatically incorporated as part of the Lease Agreement on the effective date of such change, as if fully set forth herein.

6.13. Order of Precedence: The provisions of this Lease Agreement will govern the relationship of the Parties. In the event of conflicts or inconsistencies between the Lease Agreement and its exhibits, such conflicts or inconsistencies will be resolved by reference to the documents in the following order of priority:

6.13.1. The provisions of the main body of this Lease Agreement;

6.13.2. Exhibits.

6.14. Prior Agreements: This Lease Agreement cancels and supersedes all prior agreements between the Parties related to the lease of AGENCY's Excess Credits to Subdistrict No. 3, if any.

6.15. Third Party Enforcement: The terms and conditions of this Lease Agreement, and all rights of action relating thereto, are strictly reserved to the Parties, and nothing in this Lease Agreement gives or allows any claim, right, or cause of action whatsoever by any other person not included in this Lease Agreement. Any person or entity, other than the Parties, receiving services or benefits under this Lease Agreement will be deemed an incidental beneficiary only.

7.16 Waiver: A waiver of a breach of any provision of this Lease Agreement does not waive any subsequent breach of the same or different provision of this Lease Agreement. Any Party's failure in any one or more instances to insist upon strict performance of any of the terms and conditions of this Lease Agreement or another remedy for a breach of this Lease Agreement, or to exercise any right herein conferred will not be construed as a waiver or relinquishment of that right or of that Party's right to assert or rely upon the terms and conditions of this Lease Agreement. Any express waiver of a term of this Lease Agreement will not be binding and effective unless made in writing and properly executed by the waiving Party.

7. Bonus Payment.

8.01 This Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3, above and will be in addition to any such calculated payment.

8.03 For purposes of this Agreement, the Bonus Payment will be a Remedy Credit.

8.04 The Bonus Payments will be paid to AGENCY on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Leroy and Rosalie Martinez ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

__X__ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

__X__ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Owner owns and operates the An Con Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SW ¼SW ¼ of Section 17, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 10.8 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

__X__ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right not to accept that amount, and if not accepted, the forbearance will end on April 30th of that ARP Year in which the price increase was requested and before its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day, as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals 25 acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)	Percentage Owned
42	3.45	40%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $150 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement, the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement, the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Owner:

Leroy and Rosalie Martinez

[redacted]

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of the Owner's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts before the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign their rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue for any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Wayne Quinlan ("Owner") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

X Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

X Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

X Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Owner owns and operates the An Con Ditch, Priority No. 42 ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SW ¼ SW ¼ of Section 17, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling ~~18.8 c.f.s.~~ *Correction it should be 10.8 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Owner, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Owner's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Owner agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

__X__ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Owner.**

2.1. During the term of this Agreement, the Owner will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Owner diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Owner and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)	% of Priority Forbore
42	10.8	68%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Owner $ 31.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Owner with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Owner will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Owner with an accounting of the unreplaced injurious depletions to the water rights of the Owner decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Owner under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Owner will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Owner will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Owner's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Owner's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Owner for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Owner or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owner and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by

a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Owner may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Owner, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Owner and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Angustura Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JR Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JR Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JR Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Angustura Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE ¼ NW ¼ of Section 2, T32N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 26.00 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

__✓__ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
65	26.00

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $31.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Jim F. Romero

[redacted]

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Antonito Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

X Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

X Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

X Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Antonito Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE ¼ SE ¼ of Section 32, T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 139.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

__X__ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
113	139.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 31 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the

total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Ranch Solazzo Conejos LLC ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

AD Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

AR Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

AD Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Archuleta Trogillio No. 1 and No. 2 Ditches ("Ditches") and the water rights decreed thereto. The Ditches divert water from the Conejos River; the Archuleta Trogillio No. 1 in the NE¼ SW¼, which has decreed priorities totaling 12.58 c.f.s., and the Archuleta Trogillio No. 2 in the SE¼ NW¼, which has decreed priorities totaling 14.94 c.f.s., both of Section 1, T33N, R9E, N.M.P.M., in Conejos County, Colorado.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditches may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditches at the top of the Stream Reach to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

JH Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditches may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditches requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditches or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditches or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditches under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditches and listed in paragraph 2.4 below is the calling

water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day, as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditches will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditches would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month by the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditches during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditches during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditches.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditches are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Archuleta Trogillio No. 1

Priority No.	Amount (c.f.s.)
18	8.81
61	3.77

Archuleta Trogillio No. 2

Priority No.	Amount (c.f.s.)
19	14.94

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditches is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditches to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 30.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditches would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditches; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditches and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditches. Under this Agreement, the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditches. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement, the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditches to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District

610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:
Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of the Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts before the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are outlined in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date

for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Willett Dairy Farm and Cattle Company ("Company") and the Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict") of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

RECITALS

A. The Company owns and operates the Ball Brothers Overflow No. 1 and No. 2 ("Ditches") and the water rights decreed thereto. The Ditches diverts water from the Conejos River in the NW ¼ NW ¼ of Section 10 and/or the SW ¼ NE ¼, T35N, R11E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 52.00 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditches may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditches at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

__X__ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditches may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditches requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditches or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditches or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditches under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditches is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the *last priority served from the most recent Daily Report until a new Daily Report is issued.*

2.3. The number of acre-feet of injurious depletions to the water right of the Ditches will be calculated each day the Ditches is the calling water right, in whole or in part, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditches would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as

contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditches during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditches are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
80	22.00
81	20.00

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditches is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditches to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $65.00 per acre-foot of remedy *of injurious stream depletions that are not required to be made available at the top of the Stream* Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditches would have been able to divert if all unreplaced injurious depletions to the Ditches had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditches; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditches. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditches to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Willett Cattle Co.
[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made

again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement.

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

X Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Bernardo Romero Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SW ¼ SE ¼ of Section 32 T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed totaling 8.76 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

__X__ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to all acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals all acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
35	8.76

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ Fifty 50 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Virgil Ruybal
[redacted]

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or

delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Branch Ditch and Stover Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

__X__ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

__X__ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Branch Ditch and Stover Ditch ("Ditches") and the water rights decreed thereto. The Ditches divert water from the Conejos River. The Branch Ditch is located in the NE ¼ NW ¼ of Section 30, T34N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 10.4 c.f.s. The Stover Ditch is located in the NE ¼ SW ¼ of Section 25, T34N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 4.5 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditches may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditches at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

KS XP Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditches may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditches requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditches or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditches or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace any of the injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditches under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditches and listed in paragraph 2.4 below is the calling

water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditches will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditches would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditches during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditches are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Ditch	Priority No.	Amount (c.f.s.)
Branch	52	7.0
	120	10.4
Stover	52	8.0
	131	2.5
	163	2.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditches is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditches to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $45.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The

Subdistricts will then calculate the amount of water that the water rights decreed to the Ditches would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditches; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditches and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditches. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditches. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditches to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the following Water Activity Enterprises of the Rio Grande Water Conservation District ("Subdistricts") and the Guadalupe and Brazo Del Norte Ditches ("Company"), (sometimes collectively referred to as the "Parties").

Please initial next to your selections:

DM Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

DM Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Guadalupe and Brazo Del Norte Ditches, and the water rights decreed thereto, sometimes collectively referred to as the "Ditches". The Ditches divert water from the Conejos River in the SW1/4NE1/4 of Section 24, Township 33 North, Range 8 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 33.46 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditches may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditches at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

DM Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace any of the injurious stream to the water rights of the Company diverted from the Conejos at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditches are the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditches will be calculated each day the Ditches are the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a

running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditches would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' 2020, 2021 and 2022 ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditches during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditches are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
Guadalupe Main	
1	13.46
Priority No.	Amount (c.f.s.)
Brazo Del Norte	
139	20.00

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditches is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Company to divert the full amount of last priority served on that day.

3. Remedy of Injurious Depletions. The Subdistrict will, for every acre-foot of injurious depletions to the Company, as stated above, provide one acre-foot of water in storage in Platoro Reservoir to be released upon request by the Company.

3.1 By the 5th day of each month under this agreement, the Subdistricts will provide to the Company and the Conejos Water Conservancy District a total of the amount of injurious depletions calculated pursuant to Paragraph 2, above ("Credit Water").

3.2 Any time after the 5th day of each month, Company may request a release of all or a part of the accumulated Credit Water for release by the Conejos Water Conservancy District, in compliance with the legal and physical restrictions on such releases.

3.3 All Credit Water must be released from Platoro Reservoir before December 31 of the year in which it is stored.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditches. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under

its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditches to offset depletions that would otherwise have to be replaced by the Subdistricts under their respective 2020, 2021 and 2022 Annual Replacement Plans.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Guadalupe Ditch Co. [redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made

again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment to the Company in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Canon Ditch Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

X Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

X Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

X Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Canon Irrigating Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE ¼ NE ¼ of Section 1, T32N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 42.676 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

__X__ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
22	42.676

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 31 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the

total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the O.D. Espinoza and Sons ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__Y__ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

__Y__ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

__Y__ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Martinez, Lopez, Fuerticitios, and Cordova Ditches ("Ditches") and the water rights decreed thereto. The Ditches divert water from the Conejos River; the Martinez ditch in the SE ¼ SW ¼ of Section 35, T34N, R9E, N.M.P.M., and has decreed priorities totaling 12.96 c.f.s.; the Lopez Ditch in the NE ¼ NW ¼ of Section 2, T33N, R9E, N.M.P.M., and has decreed priorities totaling 2.88 c.f.s.; the Fuerticitios Ditch in the NE ¼ NW ¼ of Section 11, T33N, R9E, N.M.P.M., and has decreed priorities totaling 31.7 c.f.s.; the Cordova Ditch in the SW ¼ NW ¼ of Section 2, T33N, R9E, and has decreed priorities totaling 6.54 c.f.s., all in Conejos County, Colorado.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

__X__ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Ditch	Priority No.	Amount (c.f.s.)
Martinez Ditch	51	12.96
Lopez Ditch	51	2.88
Fuerticitios Ditch	25	31.47
Cordova Ditch	53	6.54

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 35.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

O.D. Espinoza & Sons
[redacted]

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com

(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:
Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023, between Del Puerticito Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JB Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

JB Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Del Puerticito Ditch and the water rights decreed thereto. The Del Puerticito Ditch diverts water from the Conejos River in the SW1/4 NE1/4 of Section 1, Township 33 North, Range 9 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 8.76 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP for all years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

JB Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Company diverted from the Conejos at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly

stream depletions to the affected Stream Reach as contained in the Subdistricts' 2020, 2021 and 2022 ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
12	8.76

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Company $ 15 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $ 15 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is

not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Jessie Bagwell
[redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must

be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the El Cerrito Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JJA Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JJA Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JJA Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the El Cerrito ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NW¼ NW¼ of Section 32, T34N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 16.19 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

AB Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
14	6.19
165	10.00

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 30 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

John Salazar

[redacted]

To the Trinchera Subdistrict:
Monty Smith, President
Trinchera Water Conservancy District
610 Main Street

Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:
Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as

such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Ephraim Ditch Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

WC Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

WC Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Ephraim Ditch ("Ditch") and the water rights decreed thereto. The Ephraim Ditch diverts water from the Conejos River in the NE1/4 SW1/4 of Section 17, Township 34 North, Range 10 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 47.0 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

WC Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Ditch will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Conejos River at the headgate of the Ditch under priority no. 56 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will

initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
56	47.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Company $ 1.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $ 1.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Ephraim Ditch Co [redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set

forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGENCY

This Forbearance Agreement is entered into effective May 1, 2025 between the C.R. Espinosa & Sons ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

RTS Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

RTS Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

RTS Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Espinosa Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SW¼ NW¼ of Section 1, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 19.54 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2025 through April 30, 2026)

_____ Three Years (May 1, 2025 through April 30, 2028)

_____ Five Years (May 1, 2025 through April 30, 2030)

__✓__ Ten Years (May 1, 2025 through April 30, 2035)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _ __ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
29	19.54

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 35 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

O. D. Espinoza & Sons Inc
[redacted]

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Gabriel Martinez Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Gabriel Martinez Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SW¼ NW¼ of Section 33, T33N, R8E, N.M.P.M., Conejos County, and has decreed priorities totaling 3.71 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April, 2031)

GS Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water

right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount
15	3.71

On such days the amount of water that the Subdistrict must provide to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $50.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

To the Subdistrict:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of the Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict before the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are outlined in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or

delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between Wayne Quinlan ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

__X__ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

__X__ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company partially owns and operates 3.75 c.f.s. of the Heads Mill & Irrigation Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE ¼ SE ¼ of Section 24, T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 45.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

__X__ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace any injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be

deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)	% Owned
2	3.75	8.3%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $31.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Wayne E. Quinlan
[redacted]

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2025 between the Home Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

MB Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

MB Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

MB Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Home Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NW ¼ SW ¼ of Section 26, T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 4.5 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2025 through April 30, 2026)

_____ Three Years (May 1, 2025 through April 30, 2028)

_____ Five Years (May 1, 2025 through April 30, 2030)

MB Ten Years (May 1, 2025 through April 30, 2035)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
79	4.5

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 30.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Mike Bush
[redacted]

To the Trinchera Subdistrict:

amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as

such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Rio Grande Water Conservation District ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

__X__ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

__X__ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the J.F. Chacon No. 2 ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE ¼ NE ¼ of Section 24, T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 14.08 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

___X__ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace any of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be

deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
44	7.54
49	4.54
97	1.0
142	1.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $0.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a

calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the J.F. Chacon No 3 D ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

X Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

X Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

X Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates a portion of the J.F. Chacon No. 3 Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SW ¼ SW ¼ of Section 17, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 18.31 cfs.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

__X__ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)	% of Priority Forbore
38	18.31	50%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 31.05 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Quinlan Ranches Inc
[redacted]

(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the

total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the La Del Rio Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

Y Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

Y Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the La Del Rio Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SW ¼ SE ¼ of Section 27, T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 20.01 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

__4__ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
23	20.01

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 3.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

La Del Rio Ditch Company
% Arnella Vigil
[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the LAS MESITAS DITCH ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JP Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

GR Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Las Mesitas ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE¼ NW¼ of Section 1, T32N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 38.99 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

X Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to All acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

LAS MESITAS DITCH COMPANY
C/O JILL LUCERO
[redacted]

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals ANY acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
26	38.99

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 50 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or

delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Los Sauces Ditch Company ("Company") and the Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict") of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

RW Water Activity Enterprise of Special Improvement District No. 6 (Subdistrict No. 6)

RECITALS

A. The Company owns and operates the Los Sauces Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE ¼ NW ¼ of Section 9, T35N, R11E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 88.43 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

__X__ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able

to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
32	88.43

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $175.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at

the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Los Sauces Ditch Company
[redacted]

To the Subdistrict:

Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
(719) 589-6301

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made

again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement.

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Water Activity Enterprises of Special Improvement Districts No. 3 (Conejos) and 6 (Alamosa-La Jara) of the Rio Grande Water Conservation District ("Subdistricts") and the Manassa Land and Irrigation Company Ditch ("Company"), (sometimes collectively referred to as the "Parties").

RECITALS

A. The Company owns and operates the Manassa Ditch No. 3, the Manassa Westfield Ditch, and the Manassa Eastfield Ditch and the water rights decreed thereto, "sometimes collectively referred to as the "Ditches". The Manassa Ditch No. 3 diverts water from the Conejos River in the SW1/4 NE1/4 NE1/4 of Section 17, Township 33 North, Range 9 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 192.889 c.f.s. The Manassa Westfield Ditch diverts water from the Conejos River in the NE1/4 SW1/4 NE1/4 of Section 35, Township 34 North, Range 9 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 139.0 c.f.s. The Manassa Eastfield Ditch diverts water from the Conejos River in the SE1/4 NW1/4 of Section 25, Township 34 North, Range 9 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 38.6 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditches may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditches at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

JC Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the following water rights of the Company diverted from the Conejos River at the headgate of the Ditches by supplying water to the top of the affected Stream Reach:

2.1.1. The Manassa Ditch No. 3 under priority no(s). 1, 2, 5, 16, 48, 67, 68, 84 and 169.

2.1.2. The Manassa Westfield Ditch under priority no(s). 98, 112 and 162.

2.1.3. The Manassa Eastfield Ditch under priority no. 48.

Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditches are the calling water right, except as provided in paragraph 2.4 below. The calling

water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditches will be calculated each day the Ditches are the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditches would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' 2020, 2021 and 2022 ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditches during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditches are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
Manassa Ditch No. 3	
1	29.79
2	11.00
2	29.10 AP
5	8.199
16	13.90
48	35.00
67	6.75
68	1.00
84	23.25
169	64.00
Note: 0.9 cfs of Priority 2 is left in the river per 97CW25	
Manassa Westfield Ditch	
98	30.00
112	24.00
162	85.00
Manassa Eastfield Ditch	
48	38.60

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditches is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with

paragraph 2.3, or (2) the amount of water necessary to allow the Ditches to divert the full amount of last priority served on that day.

3. Payment.

Subdistrict No. 3 will pay the Owners $ 10 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Owners $ 10 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditches would have been able to divert if all unreplaced injurious depletions to the Ditches had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditches. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditches to offset depletions that would otherwise have to be replaced by the Subdistricts under their respective 2020, 2021 and 2022 Annual Replacement Plans.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment to the Company in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2025 between the McCarroll Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JAB Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JAB Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JAB Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the McCarroll Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE¼ NE¼ of Section 3, T32N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 13.72 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2025 through April 30, 2026)

__✓__ Three Years (May 1, 2025 through April 30, 2028)

_____ Five Years (May 1, 2025 through April 30, 2030)

_____ Ten Years (May 1, 2025 through April 30, 2035)

If a ten-year term is selected, the Company may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Company requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Company or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Company or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
47	13.72

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 35 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

McCarroll Ditch Company
c/o Denise Bell (Secretary)
[redacted]

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Mill Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

AH Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

AH Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

AH Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Mill ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SW ¼ SE ¼ of Section 31, T 34 N, R 10 E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 12.67 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

JH Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
#9	12.67

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 30.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as

such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Mogote Ditch and Northeastern Consolidated Ditch Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JP Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JP Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JP Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Mogote Ditch and Northeastern Consolidated Ditch (sometimes collectively referred to as "Ditches") and the water rights decreed thereto. The Mogote Ditch diverts water from the Conejos River in the NE ¼ NW ¼ of Section 26, T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 342.4 c.f.s. The Northeastern Consolidated Ditch diverts water from the Conejos River in the SE ¼ of Section 27, T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 92.8 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

X JP Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace all of the injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach.

2.1.1. The Mogote Ditch under priority no. 115.

2.1.2. The Northeastern Ditch under priority no(s). 66, 119, and 127.

Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
66	34.71
115	342.40
119	41.25
127	16.84

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 1.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Mogote North eastern

[redacted]

To the Trinchera Subdistrict:
Monty Smith, President
Trinchera Water Conservancy District
610 Main Street

Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:
Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as

such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Los Coyotes Lucero, LLC ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JS Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

JS Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the New JB Romero D ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SE ¼ NE ¼ of Section 32, T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 17.82 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

X Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to ALL acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals AUC acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
170	17.82

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 30 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Los Coyotes Lucero, LLC.

Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or

delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2025 between the Ken Salazar ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JS Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JS Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JS Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Overflow Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE ¼ NW ¼ of Section 15, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 11.79 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2025 through April 30, 2026)

_____ Three Years (May 1, 2025 through April 30, 2028)

_____ Five Years (May 1, 2025 through April 30, 2030)

JH Ten Years (May 1, 2025 through April 30, 2035)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to all acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
20	11.79

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 30.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: [redacted]

Ken Salazar

c/o LeRoy Salazar

Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as

such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Richfield Canal ("Ditch") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Richfield Canal and the water rights decreed thereto. The Richfield Canal diverts water from the Conejos River in the SE1/4 NW1/4 of Section 17, Township 34 North, Range 10 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 168.74 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Ditch, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Ditch's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Ditch agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Ditch.

2.1. During the term of this Agreement, the Ditch will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Conejos River at the headgate of the Ditch under priority nos. 59 and 105 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Ditch and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream

depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
59	56.24
105	112.50

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Ditch $ 1.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Ditch $ 1.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Ditch with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Ditch will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Ditch with an accounting of the unreplaced injurious depletions to the water rights of the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Ditch under this Agreement is not a subordination of its water rights to any junior water rights, and is not an

agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Ditch will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Ditch will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Ditch: Richfield Canal Co [redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Ditch's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Ditch's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Ditch and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Ditch may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Ditch, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Ditch and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Ditch on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Romero Irrigation Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JP Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JP Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JP Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Romero Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE¼ SE¼ of Section 24, T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 257.8 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

X Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace all of the injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be

deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
1	26.57
23	11.43
34	25
136	25
168	77

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 1.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Sabine School Section Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JP Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JP Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JP Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Sabine School Section Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the SE1/4 NE1/4 of Section 17, Township 33 North, Range 9 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 11.95 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

__X__ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace any of the injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be

deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
39	11.95

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 1.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between Salazar Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JB Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

JB Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Salazar Ditch and the water rights decreed thereto. The Salazar Ditch diverts water from the Conejos River in the SW1/4 NW1/4 of Section 6, Township 33 North, Range 10 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 12.32 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP for all years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

JB Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Company diverted from the Conejos at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly

stream depletions to the affected Stream Reach as contained in the Subdistricts' 2020, 2021 and 2022 ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
8	12.32

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Company $ 15 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $ 15 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is

not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Jessie Boswell [redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must

be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the San Juan San Rafael Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JPC Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

JPC Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the San Juan San Rafael Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE ¼ NE ¼ of Section 33, T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 51.76 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

JPC ___✓___ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to 0.4 acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals n/a acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
27	47.76
143	4.00

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 15.49 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

San Juan San Rafael Irrigating and Mill Ditch
[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2025 between the San Rafael ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

MB Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

MB Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

MB Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the San Rafael Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NW¼ SW¼ of Section 26, T33N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 63.21 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2025 through April 30, 2026)

_____ Three Years (May 1, 2025 through April 30, 2028)

_____ Five Years (May 1, 2025 through April 30, 2030)

MB Ten Years (May 1, 2025 through April 30, 2035)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to ____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
13	8.81
28	8.81
69	4.0
177	41.59

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 30 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The

Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

San Rafael Ditch
C/O Mike Bush

(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Sanford Canal Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

✓ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

✓ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Sanford Ditch ("Ditch") and the water rights decreed thereto. The Sanford Ditch diverts water from the Conejos River in the SE1/4 SW1/4 NE 1/4 of Section 17, Township 34 North, Range 10 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 146.30 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

/// Ten Years (May 1, 2023 through April 30, 3033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Conejos River at the headgate of the Ditch under priority nos. 104 and 172 by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will

initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
104	107.5
172	38.8

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Company $ 1.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $ 1.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Sanford Canal CO

[redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set

forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Servietta Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

RTE Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

RTE Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

RTE Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Servietta Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE ¼ NE ¼ of Section 17, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 31.571 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

RTS Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
5	23.571
111	4.00
129	4.00

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 35 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch

would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Servietta Ditch Company
c/o Sam Vance

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and

the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Rancho Salazar – Cerro Largo, LLC ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JLL Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JLL Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JLL Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Trogillo Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NW¼ SE¼ of Section 29, T34N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 53.48 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

JH Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount, and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and before its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day, as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month by the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
21	29.8
30	23.68

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 30.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had

been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement, the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement, the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are outlined in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and

the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement, but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Willett Dairy Farm and Cattle Company ("Company") and the Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict") of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

RECITALS

A. The Company owns and operates the William Stuart Company Irrigation Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Conejos River in the NE ¼ NW ¼ of Section 8, T35N, R11E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 11.40 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

__X__ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

_____ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as

contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
43	11.40

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $65.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Willett Cattle Co.

[redacted]

To the Subdistrict:

Rio Grande Water Conservation District
c/o Deputy General Manager
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement.

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Gallegos Ditch No. 1 ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

__X__ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

__X__ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Gallegos Ditch No. 1 ("Ditch") and the water rights decreed thereto. The Ditch diverts water from Hot Creek in the NW ¼ SW ¼ of Section 13, T35N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 11.08 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from Hot Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

__X__ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from Hot Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
22	11.08

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Gallegos Ditch No. 4 ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

X Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

X Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

X Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Gallegos Ditch No. 4 ("Ditch") and the water rights decreed thereto. The Ditch diverts water from Hot Creek in the NW ¼ SE ¼ of Section 13, T35N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 12.32 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from Hot Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

__X__ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from Hot Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
19	12.32

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Jose E Atencio Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

RP Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

RP Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

RP Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Jose E Atencio Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Hot Creek in the NE ¼ SW ¼ of Section 13, T35N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 6.93 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from Hot Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

RP Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to NA acre-feet of injurious stream depletions to the water rights of the Company diverted from Hot Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
16	6.93

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Alamos Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

RTL Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

RTL Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

RTL Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Alamos Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NE ¼ SW ¼ of Section 25 T35N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 6.93 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

RTL One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to ALL acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

Commente
forbear

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals zero acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

Commente
require the SD
reaches this th

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
59	6.93

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

John & Patricia Mestas

This Forbearance Agreement is entered into effective May 1, 2026 between ~~the Coddington Ditch~~ ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JM Pam Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JM Pam Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JM Pam Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Coddington Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the SE ¼ NE ¼ of Section 14, T36N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 51.16 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

JM PAM Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

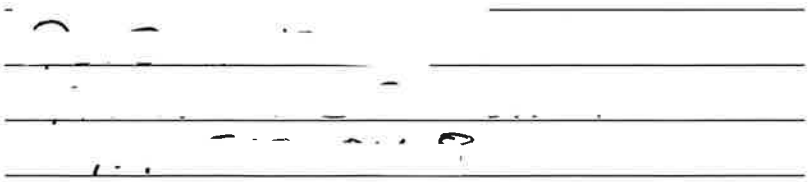
2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)	% owned
4	21.28	25%
87	29.88	25%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had



been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and

the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between ~~the~~ Lloyd Reynolds ~~Coddington Ditch~~ ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

LR Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

LR Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

LR Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Coddington Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the SE ¼ NE ¼ of Section 14, T36N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 51.16 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

LA One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals 0 acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)	% owned
4	21.28	50%
87	29.88	50%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 750 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had

been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

To the Trinchera Subdistrict:

Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and

the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Commonwealth Irrigation Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

MS Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

MS Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

MS Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Empire Canal ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NE ¼ SW ¼ of Section 6, T35N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 30.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

__MS__ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to __N/A__ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
106	30.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 20.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Commonwealth Irrigation Co.
PO Box 993
Alamosa, CO 81101

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of the Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts before the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Eskridge Garrett Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

___X___ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

___X___ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

____X_ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Eskridge Garrett Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the SW ¼ NW ¼ of Section 13, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 10.34 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

___X__ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace all injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.5 below is the calling water right, except as provided in paragraph 2.5 below. The calling water right each day will be

deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. On days meeting the criteria of 2.2 above, the Company can request a wet water replacement of estimated injurious depletions to the ditch within 24 hours or such greater time as may be required for transit of water from storage to the top of the affected stream reaches during the irrigation season.

2.4. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.5. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
23	2.5
52	7.84

% owned
36%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.4, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch

would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: [redacted]

To the Trinchera Subdistrict:

8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Eskridge Garrett Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

___X___ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

___X___ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

____X_ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Eskridge Garrett Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the SW ¼ NW ¼ of Section 13, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 10.34 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

__X__ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace all injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be

deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
23	2.5
52	7.84

% owned
647.

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will

have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District

8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the

total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Gallegos Ditch No. 2 ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

RP Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

RP Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

RP Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Gallegos Ditch No. 2 ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the SW ¼ NE ¼ of Section 24, T35N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 11.08 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

RP Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to NA acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
20	11.08

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Randy Porco
[redacted]

To the Trinchera Subdistrict:
Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District

Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

This Forbearance Agreement is entered into effective May 1, 2026 between the Garcia Ditch No. 1 ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

BG Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

BG Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

BG Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Garcia Ditch No. 1 ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NW ¼ NE ¼ of Section 17, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 2.31 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

__X__ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
6	2.31

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the H. Louise Shawcroft Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

DF Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

DF Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

DF Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the H. Louise Shawcroft Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NW ¼ NE ¼ of Section 33, T36N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 8.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

DT Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to NA acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals __NA__ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
1957-10	8.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Hansen La Jara Overflow Ditch No. 3 and Swamp Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JM Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JM Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JM Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Hansen La Jara Overflow Ditch No. 3 and the Swamp Ditch ("Ditches") and the water rights decreed thereto. The Ditches diverts water from the La Jara Creek. The Hansen La Jara Overflow Ditch No. 3 is located in the NW ¼ NW ¼ of Section 18, T36N, R11E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 21.28 c.f.s. The Swamp Ditch is located in the NW ¼ NE ¼ of Section 17, T36N, R11E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 2.49 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditches may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditches at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

JM Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditches may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditches requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditches or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditches or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditches under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditches and listed in paragraph 2.4 below is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditches will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditches would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditches during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditches during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditches.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditches are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Hansen La Jara Overflow Ditch No. 3

Priority No.	Amount (c.f.s.)	% Ownership
4	21.28	50%

Swamp Ditch

Priority No.	Amount (c.f.s.)	
5	2.49	50 %

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditches is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditches to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 80 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditches would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditches; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditches and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditches. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditches. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditches to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: John Mestas

[redacted]

To the Trinchera Subdistrict:
Monty Smith, President
Trinchera Water Conservancy District

610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:
Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date

for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 per ditch. If the Agreement includes all Subdistricts, the total bonus will be $600.00 per ditch over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 per ditch for each year of the term of the Agreement. The total annual bonus payment will be $900.00 per ditch paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 per ditch for a total of $2,700.00 per ditch paid over the term of the Agreement.

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 per ditch for each year of the term of the agreement. The total annual bonus payment will be $2,500 per ditch paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 per ditch for a total of $7,500.00 per ditch paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 per ditch for each year of the term of the agreement. The total annual bonus payment will be $10,000 per ditch paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 per ditch for a total of $30,000.00 per ditch paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Hansen La Jara Overflow Ditch No. 3 and Swamp Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

_____ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

_____ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

_____ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Hansen La Jara Overflow Ditch No. 3 and the Swamp Ditch ("Ditches") and the water rights decreed thereto. The Ditches diverts water from the La Jara Creek. The Hansen La Jara Overflow Ditch No. 3 is located in the NW ¼ NW ¼ of Section 18, T36N, R11E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 21.28 c.f.s. The Swamp Ditch is located in the NW ¼ NE ¼ of Section 17, T36N, R11E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 2.49 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditches may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditches at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

PAM Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditches may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditches requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditches or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditches or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to ____ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditches under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditches and listed in paragraph 2.4 below is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditches will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditches would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditches during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditches during the term of this Agreement equals ____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditches.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditches are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Hansen La Jara Overflow Ditch No. 3

Priority No.	Amount (c.f.s.)	% Ownership
4	21.28	50%

Swamp Ditch

Priority No.	Amount (c.f.s.)	
5	2.49	50%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditches is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditches to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditches would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditches; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditches and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditches. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditches. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditches to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date

for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 per ditch. If the Agreement includes all Subdistricts, the total bonus will be $600.00 per ditch over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 per ditch for each year of the term of the Agreement. The total annual bonus payment will be $900.00 per ditch paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 per ditch for a total of $2,700.00 per ditch paid over the term of the Agreement.

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 per ditch for each year of the term of the agreement. The total annual bonus payment will be $2,500 per ditch paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 per ditch for a total of $7,500.00 per ditch paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 per ditch for each year of the term of the agreement. The total annual bonus payment will be $10,000 per ditch paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 per ditch for a total of $30,000.00 per ditch paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Hardtack North Branch Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

BB Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

BB Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

BB Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Hardtack Ditch North Branch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NW ¼ SW ¼ of Section 17, T35N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 9.45 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

__X__ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount; if not accepted, the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals NA acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Ditch	Priority No.	Amount (c.f.s.)
Hardtack North Branch	56	9.45

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75 cw per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123

(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Hardtack South Branch Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

BB Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

BB Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

BB Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Hardtack Ditch South Branch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NW ¼ SW ¼ of Section 17, T35N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 9.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

__X__ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount; if not accepted, the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to __N/A__ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Ditch	Priority No.	Amount (c.f.s.)
Hartack South Branch	56	9.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Keystone Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

SC SM Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

SC SM Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

SC SM Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Keystone Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NW ¼ SW ¼ of Section 6, T35N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 2.81 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

SC JM Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
104	2.81

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 10 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District

Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the L. E. Shawcroft Sons Irrigation Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

MF Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

MF Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

MF Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the L. E. Shawcroft Sons Irrigation Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NE ¼ NW ¼ of Section 6, T35N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 10.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

MF Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
1957-18	10.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 1.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Le Mita No. 1 Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

AV Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

AV Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

AV Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Le Mita No. 1 Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NE ¼ SW ¼ of Section 25, T35N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 6.93 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

AV Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to __ALL__ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals ___0____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
25	6.93

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $_75___ per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Le Mita No. 2 Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

AV Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

AV Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

AV Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Le Mita No. 2 Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the SW ¼ SE ¼ of Section 35, T35N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 9.51 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

AV Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _ALL_ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals ___0___ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
6	2.31
53	7.2

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $__75___ per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had

been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

____Le Mita No. 2 Ditch_____

[redacted]

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and

the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Loise Shawcroft Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

DT Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

DT Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

DT Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Louise Shawcroft Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the SE ¼ SW ¼ of Section 33, T36N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 3.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

DT Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals NA acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
51499.44634	3.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

David Fanchette

Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Lower La Jara Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

LR Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

LR Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

LR Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Lower La Jara Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NW ¼ NE ¼ of Section 6, T35N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 34.9 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

SR One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals __0__ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
63	18.67
65	6.23
81	10.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch

would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Lloyd Reynolds

To the Trinchera Subdistrict:
Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts. the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Mc Cunniff Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

____ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

____ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

____ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Mc Cunniff Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the SW ¼ NW ¼ of Section 14, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 16.6 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

__✓__ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals NA acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
7	16.6

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: McCunniff Ditch

[redacted]

(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Miller Ditch La Jara ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

BB Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

BB Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

BB Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Miller La Jara ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the SW ¼ NW ¼ of Section 15, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 66.4 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

__X__ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to NA acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
1957-2	66.4

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Miller ditch

To the Trinchera Subdistrict:
Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Murphy Crowther Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

DR Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

DR Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

DR Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Murphy Crowther Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NW ¼ NW ¼ of Section 33, T36N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 18.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

DR One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to NA acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals 0 acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
1957-14	18.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 35.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch

would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Dean Reynolds
[redacted]

To the Trinchera Subdistrict:

amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Nate Garrett Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JdCn Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JdCn Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JdCn Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Nate Garrett Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NW ¼ SE ¼ of Section 18, T35N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 13.45 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

_____ Five Years (May 1, 2026 through April 30, 2031)

KCR Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
61	7.80
79	5.65

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch

would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Kip Norton

[redacted]

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Newcomb Bros Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

__X__ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

__X__ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Newcomb Bros Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NE ¼ NE ¼ of Section 13, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 16.18 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

__X__ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
23	9.02
42	7.16

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had

been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Petesson Farms & Ranch, LLC
[redacted]

Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and

the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Pino Real Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

TR Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

TR Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

TR Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Pino Real ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the SW ¼ NE ¼ of Section 10, T34N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 7.2 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

TR Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
49	7.2

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 100.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch

would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Thomas Ruybal

[redacted]

To the Trinchera Subdistrict:
Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Reed Ditch No. 1 ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JR Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JR Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JR Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Reed Ditch No. 1 ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NW ¼ SW ¼ SE ¼ of Section 22, T36N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 6.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

__X__ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
1957-3	6.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

_____

_____

To the Trinchera Subdistrict:

Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123

(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Reed Ditch 2 ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

LR Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

LR Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

LR Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Reed 2 ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NE ¼ SE ¼ SW ¼ of Section 22, T36N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 18.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

LA One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals 0 acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
1957-5	4.0
1957-6	14.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch

would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Floyd Reynolds [redacted]

To the Trinchera Subdistrict:
Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Reynolds Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

LR Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

LR Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

LR Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Reynods ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NE ¼ SE ¼ NE ¼ of Section 14, T36N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 7.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

LK One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals __0__ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
1957-7	10.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch

would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Floyd Reynolds [redacted]

To the Trinchera Subdistrict:
Monty Smith, President
Trinchera Water Conservancy District

Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Reynolds Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

LR Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

LR Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

LR Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Reynods ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NE ¼ SE ¼ NE ¼ of Section 14, T36N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 7.0 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

LK One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals 0 acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
1957-16	7.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch

would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Floyd Reynolds [redacted]

To the Trinchera Subdistrict:
Monty Smith, President
Trinchera Water Conservancy District
610 Main Street
Blanca, CO 81123
trincherawaterconservancy@gmail.com
(719) 588-3440

To Subdistrict No. 3 and Subdistrict No. 6:

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Romero Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JM X Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JM X Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JM X Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Romero Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NW ¼ NW ¼ of Section 25, T35N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 7.68 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

__X__ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/A acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
18	7.68

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $100 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Sanco Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JG/TR Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JG/TR Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JG/TR Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Sanco ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the SW¼ NW ¼ of Section 2, T34N, R7E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 7.2 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

____ One Year (May 1, 2026 through April 30, 2027)

____ Three Years (May 1, 2026 through April 30, 2029)

____ Five Years (May 1, 2026 through April 30, 2031)

JG/TR Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
43	7.2

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 100.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch

would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

_____

_____

Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the Valley Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

__X__ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

__X__ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Valley Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the La Jara Creek in the NE ¼ SW ¼ of Section 15, T35N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 21.12 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from La Jara Creek by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

__X__ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forbear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from La Jara Creek at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Alamosa Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
12	21.12

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 75.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full

accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason

by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the El Llano ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

MP Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

MP Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

MP Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the El Llano ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Los Pinos River in the __ ¼ NE ¼ of Section 26, T32N, R8E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 31.18 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Los Pinos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

PP Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to N/A acre-feet of injurious stream depletions to the water rights of the Company diverted from the Los Pinos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals N/a acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
41	31.18

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day. Forty

3. Payment. Each Subdistrict will pay the Company $ 40.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: El Llano Ditch
c/o Robert Bacl

Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as

such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Los Pinos Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

AV X Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

AV X Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Los Pinos Ditch ("Ditch") and the water rights decreed thereto. The Los Pinos Ditch diverts water from the Los Pinos River in the SW1/4 of Section 24, Township 32 North, Range 8 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 22.94 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Los Pinos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Ditch's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP for Plan Years 2020, 2021 and 2022

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2020 through April 30, 2021)

_____ Three Years (May 1, 2020 through April 30, 2023)

_____ Five Years (May 1, 2023 through April 30, 2028)

AV X Ten Years (May 1, 2023 through April 30, 2033)

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Company diverted from the Los Pinos River at the headgate of the Ditch under priority no(s). listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
7	22.94

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 3 will pay the Company $__70____ per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $__70____ per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and

delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Los Piños Ditch No. 7

[redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are

for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Centennial Ditch Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JH Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"

JH Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

JH Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Centennial Ditch ("Ditch") and the water rights decreed thereto. The Centennial Ditch diverts water from the Rio Grande in the SE¼ SW¼ of Section 35, T39N, R8E, N.M.P.M., and has decreed priorities totaling 82.4 c.f.s. from the Rio Grande

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

JH Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement the Company will agree to forebear from requiring each Subdistrict to replace injurious stream depletions to the water rights of the Company that are diverted from the Rio Grande at the headgate of the Centennial Ditch Company while Priority 173 is the calling water right and ongoing through the irrigation season for Priority 32 with approval by Ditch Superintendent at least 48 hours in advance of Priority 32 approaching on Call status on the Rio Grande. Each Subdistrict may choose to remedy injurious stream depletions under this agreement or by providing water, in its sole discretion.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a

running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. At any time while Priority 32 is the calling water right on the Rio Grande and the ditch is in forbearance with one or more Subdistricts, the Ditch Superintendent can request a wet water replacement of estimated injurious depletions to the ditch within 24 hours or such greater time as may be required for transit of water from storage to the ditch headgate during the irrigation season. For purposes of this paragraph 2.5, the maximum rate of daily depletions caused by wells operating under the Subdistricts ARPs will be determined by dividing the number of days in the month into the estimated monthly stream depletions to the Rio Grande contained in each Subdistrict's ARP, as approved by the State and Division Engineers.

2.5. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
32	47.4
173	35.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 2 will pay the Company an amount equal to the per acre-foot price Subdistricts are paying in each year of this agreement for temporary leases of water. This rate will be paid for every acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 3 will pay the Company an amount equal to the per acre-foot price Subdistricts are paying in each year of this agreement for temporary leases of water. This rate will be paid for every acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company an amount equal to the per acre-foot price Subdistricts are paying in each year of this agreement for temporary leases of water. This rate will be paid for every acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Centennial Ditch Company
118 Washington Street
Monte Vista, CO 81144

To the Subdistricts:

District Manager
Rio Grande Water Conservation District

8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes all three Subdistricts, the total bonus will be $600.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1st, 2026 between the United States Department of the Interior's Fish and Wildlife Service ("FWS") ,the following Water Activity Enterprises of the Rio Grande Water Conservation District, indicated below, and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District acting as a Water Activity Enterprise ("Trinchera Subdistrict"), (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

MO Water Activity Enterprise of Special Improvement District No. 1 "Subdistrict No. 1"

MO Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"

MO Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

MO Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

MO Trinchera Subdistrict

RECITALS

A. FWS owns and operates the Chicago Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio Grande in the SE¼ SE¼ of Section 11, T37N, R10E, N.M.P.M., and has decreed priorities totaling 66.4 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. FWS, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to FWS's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and FWS agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

N.O Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, FWS may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by FWS.

2.1. Under the terms of this Agreement, FWS will forebear from requiring the Subdistrict to replace injurious stream depletions to the water rights of FWS diverted from the Rio Grande River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. On days meeting the criteria of 2.2 above, FWS can request a wet water replacement of estimated injurious depletions to the ditch within 24 hours or such greater time as may be required for transit of water from storage to the top of the affected stream reaches during

the irrigation season. Due to the requirements of the Refuge mission, there could be some days where delivery of wet water would be crucial to meeting congressional obligations.

2.4. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both FWS and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.1 below.

2.5. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water and the FWS determines may occur in place of a wet water delivery:

Priority No.	Amount (c.f.s.)
174	23.2
196	3.2
1934-14	40.0

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay FWS $164 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide FWS with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. FWS will have fourteen days following the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides FWS with an accounting of the unreplaced injurious depletions to

FWS's water rights and the amount of the payment due, but not later than April 15th. In lieu of an actual cash payment, FWS would like the payment in form of credits to be applied against its fees accrued in Subdistrict 6.

4. No Subordination or Waiver of Right to Call. The forbearance by FWS under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement FWS will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement FWS will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. (719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of FWS's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance.

In the event of the Subdistrict's default in the performance of this Agreement, FWS's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay FWS for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by FWS or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, and also includes Federal holidays, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Parties. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. FWS may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of FWS, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of FWS in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict selected above, regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to FWS on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Commonwealth Irrigation Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

L C Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"

L.C. Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

L.C. Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Empire Canal ("Ditch") and the water rights decreed thereto. The Empire Canal diverts water from the Rio Grande in the NW¼ of Section 33, T39N, R8E, N.M.P.M., and has decreed priorities totaling 505.92 c.f.s. from the Rio Grande

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

L.C. Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring each of the Subdistricts to replace up to 500 acre-feet of injurious stream depletions to the water rights of the Ditch diverted from the Rio Grande River at the headgate of the Ditch under priority nos. 236A, 310A, 335A, 361A and 361B by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the

top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of a Subdistrict's estimated unreplaced depletions to the Empire Canal during the term of this Agreement equals 500 acre-feet, that Subdistrict will begin replacement of all injurious stream depletions to the Empire Canal.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
236A	312.30
310A	6.00
335A	2.30
361A	92.00
361B	93.32

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 2 will pay the Company $ 20. per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 3 will pay the Company $ 20. per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $ 20. per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Commonwealth Irrigation Company
P.O. Box 993
Alamosa, CO 81101

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes all three Subdistricts, the total bonus will be $600.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into, effective May 1, 2026, between the Excelsior Ditch Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

R.O. Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"

R.O. Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

R.O. Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Excelsior Ditch ("Ditch") and the water rights decreed thereto. The Excelsior Ditch diverts water from the Rio Grande in the SE1/4 NW1/4 of Section 6, T38N, R9E, N.M.P.M., and has decreed priorities totaling 89.70 c.f.s. from the Rio Grande

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:
Please initial next to your selection:

R.D. One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount, and if not accepted, the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forbear from requiring each of the Subdistricts to replace any of the injurious stream depletions to the water rights of the Ditch diverted from the Rio Grande River at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day, as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of

water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month by the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
74	8.4
163	45.7
249	6.2
262	29.4

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment: The Subdistrict will pay the Company $ 275 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the

Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Excelsior Ditch Company
PO Box 631
Monte Vista, CO 81144

To the Subdistricts:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of the Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts before the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter, and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are outlined in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes all three Subdistricts, the total bonus will be $600.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $4,500.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above, regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026, between Special Improvement District No. 6 (Alamosa-La Jara) of the Rio Grande Water Conservation District Water Activity Enterprise ("Subdistrict") and the San Luis Valley Irrigation District ("Company"), (sometimes collectively referred to as the "Parties"),

RECITALS

A. The Company owns and operates the Farmers Union Canal ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio Grande River in the NE¼ SW¼ of Section 36, T40N, R6E, N.M.P.M., and has decreed priorities totaling 801.36 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through its Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

RWP One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount, and if not accepted, the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to 25.0 acre-feet of injurious stream depletions to the water rights of the Company diverted from the Rio Grande River at the headgate of the Ditch under priority Nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells

operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month by the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals **25.0** acre-feet, the Subdistrict will have the option to forbear an additional **500.0** acre-feet at a cost of **$250.0** per acre-foot or will begin replacement of all injurious stream depletions to the Ditch with wet water.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
314	138.8
328T	0.25
353T	0.95
1903-17B	5.45
1903-22F	105.41
1903-24F	280.47
1903-30F	159.69
1903-34G	110.18

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company **$0.00** per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach up to a maximum of **25.0** acre-feet pursuant to the terms of this Agreement.

With the execution of the Long-Term Storage Agreement in January of 2021 between the Rio Grande Water Conservation District ("District") and the Company at Rio Grande Reservoir ("Reservoir"), the District's Board of Directors has agreed to offer the Subdistrict that is storing water within the District's leased space in the Reservoir a no-cost forbearance agreement. Subdistrict #6 currently has **1911.6** acre-feet of water stored in the Reservoir.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this

Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

No payment for a maximum of 25.0 acre-feet of unreplaced injurious depletions will be required to the District, however, the accounting of the unreplaced injurious depletions to the water rights of the District needs to be provided.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement, the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement, the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

San Luis Valley Irrigation District
c/o President
P.O. Box 637
Center, CO 81125

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of the Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict before the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are outlined in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement.

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1st, 2026 between the United States Department of the Interior's Fish and Wildlife Service ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, indicated below, and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District acting as a Water Activity Enterprise ("Trinchera Subdistrict"), (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

M.O Water Activity Enterprise of Special Improvement District No. 1 "Subdistrict No. 1"

M.O Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"

M.O Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

M.O Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

M.O Trinchera Subdistrict

RECITALS

A. FWS owns and operates the New Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio Grande in the SW¼ NW¼ of Section 28, T37N, R11E, N.M.P.M., and has decreed priorities totaling 30.43 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. FWS is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to FWS's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and FWS agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

M.O Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, FWS may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. **Forbearance by FWS.**

2.1. During the term of this Agreement, FWS will forebear from requiring the Subdistrict to replace injurious stream depletions to the water rights of FWS diverted from the Rio Grande River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. On days meeting the criteria of 2.2 above, FWS can request a wet water replacement of estimated injurious depletions to the ditch within 24 hours or such greater time as

may be required for transit of water from storage to the top of the affected stream reaches during the irrigation season. Due to the requirements of the Refuge mission, there could be some days where delivery of wet water would be crucial to meeting congressional obligations.

2.4. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both FWS and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.1 below.

2.5. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water and the FWS determines may occur in place of a wet water delivery:

Priority No.	Amount (c.f.s.)
1903-22	2.61
1903-49A	2.61
1903-62	5.21
1959-25	20.0

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay FWS $164 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide FWS with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. FWS will have fourteen days following the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides FWS's with an accounting of the unreplaced injurious depletions to FWS's water rights and the amount of the payment due, but not later than April 15th. In lieu of an actual cash payment, FWS would like the payment in form of credits to be applied against its fees accrued in Subdistrict 6.

4. No Subordination or Waiver of Right to Call. The forbearance by FWS under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement FWS will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement FWS will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. (719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of FWS's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default in the performance of this Agreement, FWS's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay FWS for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by FWS or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, and includes Federal holidays, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Parties. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. FWS may not assign its rights or delegate

its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of FWS, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of FWS in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above, regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to FWS on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between Mike Kruse ("Owner") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

MK Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"

MK Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

MK Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Owner owns a portion of decreed water rights being diverted in the Rio Grande Canal ("Ditch"). The Rio Grande Canal diverts water from the Rio Grande in the NW¼ of Section 30, T40N, R6E, N.M.P.M.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Owner may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Owner at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Owner is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Owner's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Owner agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

MR Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Owner.

2.1. During the term of this Agreement, the Owner will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Owner diverted from the Rio Grande River at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Owner is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is

issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Owner will be calculated each day the Owner is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Owner and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Owner would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's respective ARP's as approved by the State and Division Engineers. The actual amount of injurious depletions to the Owner during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Owner are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)	% Owned
178	11.21	58.1%
198	19.59	20.0%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Owner is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Owner to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 2 will pay the Owner $250 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 3 will pay the Owner $250 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Owner $250 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Owner would have been able to divert if all unreplaced injurious depletions to the Owner had been replaced during the term of this Agreement, and provide the Owner with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Owner; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Owner will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Owner with an accounting of the unreplaced injurious depletions to the water rights of the Owner and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Owner under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Owner will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Owner will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Owner:

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Owner's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Owner's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Owner for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Owner or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement

are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owner and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Owner may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Owner, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the

length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Owner and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes all three Subdistricts, the total bonus will be $600.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $4,500.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Owner on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between Ponderosa Partnership, LLC ("Owner") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JB Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"

JB Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

JB Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Owner owns a portion of the decreed water rights being diverted in the Rio Grande Canal ("Ditch"). The Rio Grande Canal diverts water from the Rio Grande in the NW¼ of Section 30, T40N, R6E, N.M.P.M.

B. The Subdistricts are responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Ditch may be reduced by the stream depletions caused by wells that the ARP covers. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach to remedy injurious stream depletions.

D. The Owner, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Owner's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Owner agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

__X__ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistricts reserves the right not to accept that amount, and if not accepted, the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, the Ditch or Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the Agreement to end.

2. **Forbearance by the Owner.**

2.1. During the term of this Agreement, the Owner will forbear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Owner diverted from the Rio Grande River at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day, as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, with both the Owner and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating

under the Subdistricts' ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month by the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

"Special Water" Priorities

Priority No.	Amount (c.f.s.)	% Owned
178	11.21	17.5%
198	19.59	16.3%

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistricts will pay the Owner $ 250 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Owner with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Owner will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provides the Owner with an accounting of the unreplaced injurious depletions to the water rights of the Owner and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Owner under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Owner will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this

Agreement, the Owner will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Owner:

Ponderosa Partnership, LLC

[redacted]

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Owner's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Owner's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Owner for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Owner or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must

be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owner and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Owner may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Owner, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Owner and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes all three Subdistricts, the total bonus will be $600.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Owner on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026, between Special Improvement District No. 6 (Alamosa/La Jara) of the Rio Grande Water Conservation District Water Activity Enterprise ("Subdistrict") and the Rio Grande Canal Water Users' Association ("Company"), (sometimes collectively referred to as the "Parties").

RECITALS

A. The Company owns and operates the Rio Grande Canal ("Ditch") and the water rights decreed thereto. The Rio Grande Canal diverts water from the Rio Grande in the NW¼ of Section 30, T40N, R6E, N.M.P.M., and has decreed priorities totaling 1,648.50 c.f.s., including special water rights delivered in the Rio Grande Canal, of which the Rio Grande Canal Water Users Assn. are partial owners of some of these special water rights. This agreement does not include the winter recharge rights.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through its Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

__X__ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

_____ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount, and if not accepted, the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years' notice before the date they want the Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to replace up to 900 acre-feet of injurious stream depletions to the water rights of the Company diverted from the Rio Grande River at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day, as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month by the estimated monthly stream depletions to the

affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of a Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals 900 acre-feet, that Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

"Special Water" Priorities		
Priority No.	**Amount (c.f.s.)**	**% Owned**
176	2.80	100.00%
178	11.20	18.64%
197	20.00	83.05%
198	19.60	57.07%

Rio Grande Canal Water User's Assn. Priorities	
Priority No.	**Amount (c.f.s.)**
216-A	318.40
276-A	22.80
288-A	22.70
312-A	26.00
338 ½-A	33.60
344	24.40
358-A	16.60
363-A	43.40
363-B	52.00
365	293.70
1903-24C	45.00
1903-30C	84.96
1903-34C	48.99
1903-37B	38.74
1903-41B	41.34
1903-45C	88.14
1903-46C	81.71
1903-49D	183.60
1903-52C	82.68
1903-57A	44.92
1903-61A	43.62

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $250.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement, the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement, the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under its Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

President, Rio Grande Canal Water Users' Association
147 Washington Street
P.O. Box 288

Monte Vista, CO 81144

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of the Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict before the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday, or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement, but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby includes a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the total annual bonus payment will be $200.00 paid over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 for each year of the term of the Agreement. The total annual bonus payment will be $1,500.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 for each year of the term of the Agreement. The total annual bonus payment will be $3,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between David Toews ("Owner") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

DWT ✓ Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"

DWT ✓ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

DWT ✓ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Owner owns a portion of decreed water rights being diverted in the Rio Grande Canal ("Ditch"). The Rio Grande Canal diverts water from the Rio Grande in the NW¼ of Section 30, T40N, R6E, N.M.P.M.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Owner may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Owner at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Owner is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Owner's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARPs.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Owner agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

DWT Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Owner.

2.1. During the term of this Agreement, the Owner will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Owner diverted from the Rio Grande River at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Owner is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Owner will be calculated each day the Owner is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Owner and the Subdistrict will keep a running

total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Owner would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's respective ARP's as approved by the State and Division Engineers. The actual amount of injurious depletions to the Owner during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Owner are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)	% Owned
198	19.59	6.6%

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Owner is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Owner to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 2 will pay the Owner $ 250.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 3 will pay the Owner $ 250.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Owner $ 250.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Owner would have been able to divert if all unreplaced injurious depletions to the Owner had been replaced during the term of this Agreement, and provide the Owner with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Owner; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Owner will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Owner with an accounting of the unreplaced injurious depletions to the water rights of the Owner and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Owner under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Owner will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Owner will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Owner: DAVID W TOEWS

[redacted]

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Owner's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Owner's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Owner for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Owner or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owner and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Owner may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Owner, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Owner and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes all three Subdistricts, the total bonus will be $600.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $4,500.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Owner on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Rio Grande Lariat Ditch Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"

__X__ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

__X__ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Rio Grande Lariat ("Ditch") and the water rights decreed thereto. The Rio Grande Lariat diverts water from the Rio Grande in the NE¼ SW¼ of Section 22, T39N, R7, N.M.P.M., and has decreed priorities totaling 106.78 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement.** This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

__X__ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to 500_____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Rio Grande River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
217	53.02
1903-12A	2.61
1903-17	3.62
1903-24B	15.87
1903-30B	2.28
1903-34B	10.42
1903-37A	3.91
1903-41A	2.04
1903-45B	3.26
1903-46B	0.65
1903-49C	2.61
1903-52B	0.65
1903-22A	5.86

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $35.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Lariat Ditch Company
118 Washington Street
Monte Vista CO 81144

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District

8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Rio Grande Piedra Valley Ditch Company ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

__X__ Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"

__X__ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

__X__ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Rio Grande Piedra Valley Ditch and the water rights decreed thereto ("Ditch"). The Ditch diverts water from the Rio Grande River in the SW1/4 SE1/4 of Section 8, Township 39 North, Range 7 East, N.M.P.M. in Rio Grande County, Colorado, and has decreed priorities totaling 94.48 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_X_ Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Company diverted from the Rio Grande River at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
146	42.90
241	32.80
1903-24	0.38
1903-30	0.85
1903-34	1.14
1903-45	1.91
1903-46	0.57
1903-49	3.00
1903-52	3.05
1903-57	4.46
1903-61	3.42

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $25.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this

Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Rio Grande Valley Ditch CO.
1604 County Rd. 28
Monte Vista, CO 81144

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2025 between the Rio Grande San Luis Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

X Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"

X Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

X Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Rio Grande San Luis Ditch and the water rights decreed thereto ("Ditch"). The Ditch diverts water from the Rio Grande River in the NE1/4 SW1/4 of Section 22, Township 39 North, Range 7 East, N.M.P.M. in Rio Grande County, Colorado, and has decreed priorities totaling 53.24 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio Grande River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water rights are remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2025 through April 30, 2026)

_____ Three Years (May 1, 2025 through April 30, 2028)

_____ Five Years (May 1, 2025 through April 30, 2030)

__X__ Ten Years (May 1, 2025 through April 30, 2035)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Company diverted from the Rio Grande River at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Rio Grande Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a

running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's 2025 ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
156	1.00
204	14.60
217	0.38
220	5.50
298	9.52
1903-22D	19.06
1903-30E	0.54
1903-34B	2.48
1903-57E	0.16

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment:

Subdistrict No. 2 will pay the Company $_50___ per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 3 will pay the Company $_50___ per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

Subdistrict No. 6 will pay the Company $_50___ per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate

the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Company; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Rio Grande San Luis Ditch
PO Box 631
Monte Vista, CO 81144

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific

performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any

other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes all three Subdistricts, the total bonus will be $600.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes all three Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict selected above regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between Broyles Overflow No. 4 Ditch ("Ditch") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

E. S. Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

E. S. Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Broyles Overflow No. 4 Ditch and the water rights decreed thereto. The Broyles Overflow No. 4 Ditch diverts water from the Rio San Antonio in the NE1/4 SW1/4 of Section 30, Township 33 North, Range 10 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 5.50 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio San Antonio by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Ditch, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Ditch's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP for Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Owner agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

__X__ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. **Forbearance by the Ditch.**

2.1. During the term of this Agreement, the Ditch will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Owner diverted from the Rio San Antonio at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Ditch and the Subdistricts will keep a running

total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' 2020, 2021 and 2022 ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
71	1.50
72	2.50
73	1.50

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistricts will pay the Owner $ 50 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Ditch with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Ditch will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Ditch with an accounting of the unreplaced injurious depletions to the water rights of the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Ditch under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Ditch

will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Ditch will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their respective 2020, 2021 and 2022 Annual Replacement Plans.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Ditch:

_____
_____
_____
_____

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Ditch's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Ditch's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owner and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Ditch may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Owner, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Ditch and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment to the Ditch in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Ditch on or before December 31, of each ARP year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the 8 mile ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JD Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JD Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JD Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the 8 mile ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the San Antonio River in the NE¼ NE ¼ of Section 17, T33N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 40.78 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the San Antonio River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

___ One Year (May 1, 2024 through April 30, 2025)
___ Three Years (May 1, 2024 through April 30, 2027)
___ Five Years (May 1, 2024 through April 30, 2029)
___ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to ____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the San Antonio River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
194C	30.00
196C	10.78

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 30 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

8 mile Ditch
John Salazar

Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as

such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between Florida / Riede / Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

~~Water Activity Enterprise of Special Improvement District No. 2 "Subdistrict No. 2"~~

Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Florida Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio San Antonio in the SW¼ SE¼ of Section 29, T33N, R9E, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 20.80 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio San Antonio by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

JB Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to 1,000 acre-feet of injurious stream depletions to the water rights of the Company diverted from the Rio San Antonio at the headgate of the Ditch under priority nos. listed in 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals 0 acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
116	20.80

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $30 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company: Los Coyotes Lucero, LLC.
[redacted]
Alianza Lucero, LLC
[redacted]

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District

8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.1 If this Agreement is for a term of one year, the bonus payment will be $200.00.

8.01.2 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement.

8.01.3 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement.

8.01.4 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31, of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Los Coyotes Lucero, LLC ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

___ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

___ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Galvis Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio San Antonio in the SE ¼ NE ¼ of Section 18, T32N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 10.97 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio San Antonio by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

___X__ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to All acre-feet of injurious stream depletions to the water rights of the Company diverted from the Rio San Antonio at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals A2C acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
36	10.97

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 30 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Los Coyotes Lucero, LLC.
[redacted]

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or

delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Los Coyotes Lucero, LLC ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JB Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

JB Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Jaramillo Overflow No. 2 Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio San Antonio in the SE ¼ NW ¼ of Section 30 T33N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 2.00 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio San Antonio by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

___X_ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to ALL acre-feet of injurious stream depletions to the water rights of the Company diverted from the Rio San Antonio at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals ALL acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
75	2.00

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $30 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Los Coyotes Lucero, LLC.
C/o Jill Lucero
[redacted]

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or

delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Los Coyotes Lucero, LLC ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

SMD - Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

tJJ Water Activity Entmprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Lovato Irrigation ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio San Antonio in the SW ¼ SE ¼ of Section 25, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 27.58 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management {"Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio San Antonio by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreemen½ the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501 (4)(b)(l)(B), C.R.S., pursuant to which injuzy to the Company's water right is remedied by m other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

__ One Year (May 1, 2023 through April 30, 2024)

__ Three Years (May 1, 2023 through April 30, 2026)

__ Five Years (May 1, 2023 through April 30, 2028)

l,,.. 5,c(jic_ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to ,1U,.. _ acre-feet of injurious stream depletions to the water rights of the Company diverted from the Rio Antonio at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals ALL acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)	% of Priority Being Forbeared
33	27.58	50%

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 50 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Los Coyotes Lucero, LLC.
[redacted]

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or

delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Maes Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

___X___ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

___X___ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

___X___ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Maes Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio San Antonio in the NW¼ NW¼ of Section 35, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 4.00 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

___X__ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to **1,000** acre-feet of injurious stream depletions to the water rights of the Company diverted from the Conejos River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
116	2.925
180	1.075

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company **$30.00** per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will

have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. (719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the

total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Los Coyotes Lucero, LLC ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

_____ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

_____ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Martinez Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio San Antonio in the SW ¼ SE ¼ of Section 29, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 13.68 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio San Antonio by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

___X__ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to 6LL acre-feet of injurious stream depletions to the water rights of the Company diverted from the Rio San Antonio at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and

injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals NA acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
57	13.68

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 50 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Los Coyotes Ranch, LLC
[redacted]

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or

delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between the Andrew Velasquez for Punche Ditch Water Users ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

AV Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

AV Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Punche Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio San Antonio in the SE ¼ NE ¼ of Section 33 T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 15.00 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio San Antonio by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

___X__ Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace up to ALL acre-feet of injurious stream depletions to the water rights of the Company diverted from the Rio San Antonio at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistrict's estimated unreplaced depletions to the Ditch during the term of this Agreement equals ALL acre-feet, the Subdistrict will begin replacement of all injurious stream depletions to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
94	15.00

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $ 50.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the

payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

ANDREW VELASQUEZ
PUNCHE DITCH WATER USERS
[redacted]

To the Subdistrict:

Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and

their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the

total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May1, 2023 between the Los Coyotes Lucero, LLC ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

~~___X___ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 2"~~

___X___ Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

___X___ Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Company owns and operates the Riedel Ditch ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio San Antonio in the SW¼ SE¼ of Section 29, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 13.75 c.f.s.

B. The Subdistrict is responsible for implementing the Plan of Water Management ("Plan") through their Annual Replacement Plan ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio San Antonio by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARP. Without this Agreement, the Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistrict desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

___X__ Five Years (May 1, 2023 through April 30, 2028)

_____ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistrict to replace any of the injurious stream depletions to the water rights of the Company diverted from the Rio San Antonio at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistrict will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistrict providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistrict will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
192	13.75

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistrict will pay the Company $30.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARP, and not later than March 15, the Subdistrict will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistrict will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The company will have fourteen days after the receipt of the calculations to notify the Subdistrict of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistrict provides the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their Annual Replacement Plan.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Los Coyotes Lucero, LLC

Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistrict's remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistrict's default hereunder, Company's remedies will be to retain all payments made by the Subdistrict prior to the date of the default, to require full

replacement of all injurious stream depletions from and after the date of default by the Subdistrict, and to require the Subdistrict to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistrict to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistrict. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistrict, which consent shall not be unreasonably withheld. The Subdistrict may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistrict, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistrict to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement.

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Rincones Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JLA Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JLA Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JLA Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Rincones ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the San Antonio River in the SW ¼ SW ¼ of Section 5, T33N, R10E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 22.25 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the San Antonio River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

JJ Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the San Antonio River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary _____ Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
24	22.25

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $30.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as

such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the New Cenicero Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

E.S. Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

E.S. Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

E.S. Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Senicero ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the San Antonio River in the SE ¼ SW ¼ of Section 27, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 18.31 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the San Antonio River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

S.S. Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. **Forbearance by the Company.**

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to n/a acre-feet of injurious stream depletions to the water rights of the Company diverted from the San Antonio River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals n/a acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
11	18.31

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 50 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as

such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between Sisneros Ditch ("Ditch") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

S.S. Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

S.S Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Owner owns and operates the Sisneros Ditch and the water rights decreed thereto. The Sisneros Ditch diverts water from the Rio San Antonio in the SE1/4 SE1/4 of Section 26, Township 33 North, Range 9 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 6.55 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio San Antonio by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Ditch, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Ditch's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP for Plan Years in which the agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Owner agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

__X___ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. **Forbearance by the Ditch.**

2.1. During the term of this Agreement, the Ditch will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Owner diverted from the Rio San Antonio at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the

top of the affected Stream Reach, and both the Ditch and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' 2020, 2021 and 2022 ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Priority No.	Amount (c.f.s.)
187	6.55

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. The Subdistricts will pay the Owner $ 50.00 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this Agreement, and provide the Ditch with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Ditch will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Ditch with an accounting of the unreplaced injurious depletions to the water rights of the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Ditch under this Agreement is not a subordination of its water rights to any junior water rights, and is not an

agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Ditch will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Ditch will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their respective 2020, 2021 and 2022 Annual Replacement Plans.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Ditch:

_____

_____

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Ditch's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Ditch's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owner and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Ditch may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Owner, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Ditch and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment to the Ditch in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Ditch on or before December 31, of each ARP year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2024 between the Star Ditch ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict") sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

JJ Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

JJ Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

JJ Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company owns and operates the Star ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the San Antonio River in the SE ¼ SE ¼ of Section 26, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 10.3 c.f.s.

B. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the San Antonio River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2024 through April 30, 2025)

_____ Three Years (May 1, 2024 through April 30, 2027)

_____ Five Years (May 1, 2024 through April 30, 2029)

AJS Ten Years (May 1, 2024 through April 30, 2034)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace up to _____ acre-feet of injurious stream depletions to the water rights of the Company diverted from the San Antonio River at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water

right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below. When the total amount of the Subdistricts' estimated unreplaced depletions to the water rights decreed to the Ditch during the term of this Agreement equals _____ acre-feet, the Subdistricts will begin replacement of all injurious stream depletions to the calling water right decreed to the Ditch.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
185	6.3
186	4.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 30.00 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Company:

Star Ditch

Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1842

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as

such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2026 between the San Luis Valley Irrigation Well Owners, Inc., a Colorado Corporation ("SLVIWO"), as the owner of certain decreed water rights as stated in Case No. 2015CW3030, District Court, Water Division No. 3 ("Company") and the following Water Activity Enterprises of the Rio Grande Water Conservation District and the Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Subdistricts" or individually "Subdistrict", sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

NS Water Activity Enterprise of Special Improvement District No. 3 ("Subdistrict No. 3")

NS Water Activity Enterprise of Special Improvement District No. 6 ("Subdistrict No. 6")

NS Groundwater Management Subdistrict of the Trinchera Water Conservancy District, acting as a Water Activity Enterprise ("Trinchera Subdistrict")

RECITALS

A. The Company holds title to various water rights as decreed in Case No. W-3394 and as pending in Case No. 2015CW3030, both District Court, Water Division No. 3.

B. The water rights held by SLVIWO were originally decreed to the Taos Valley Canal No. 3 in the Matter of the Adjudication of the Priority of Water Rights in the Conejos River and Rio San Antonio (Water District No. 88), District Court, Conejos County, Colorado (October 3, 1890).

C. The Company owns and operates the Taos Valley Canal No. 3 ("Ditch") and the water rights decreed thereto. The Ditch diverts water from the Rio San Antonio in the NE ¼ SW ¼ of Section 25, T33N, R9E, N.M.P.M., in Conejos County, Colorado, and has decreed priorities totaling 245.0 c.f.s.

D. The Subdistricts are each responsible for implementing either a Plan of Water Management or Groundwater Management Plan ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

E. The quantity of water available for diversion from the Conejos River by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, each Subdistrict would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

F. The Company, acting through its members and/or governing body, is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Company's water right is remedied by means other than providing water to replace injurious stream depletions.

G. The Subdistricts desires to enter into this Forbearance Agreement as part of the ARP for all Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistricts and the Company agree as follows:

1. Term of Agreement. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2026 through April 30, 2027)

_____ Three Years (May 1, 2026 through April 30, 2029)

_____ Five Years (May 1, 2026 through April 30, 2031)

__X__ Ten Years (May 1, 2026 through April 30, 2036)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, each Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested and prior to its effective date in the following ARP year. If a new rate is accepted by the Subdistricts, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistricts.

For a five-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other parties notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the five-year Agreement to end.

For a ten-year Agreement, either the Ditch or one or more of the Subdistricts may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the ten-year Agreement to end.

2. Forbearance by the Company.

2.1. During the term of this Agreement, the Company will forebear from requiring the Subdistricts to collectively replace all injurious stream depletions to the water rights of the Company diverted from the Rio San Antonio at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed under Colorado law.

2.2. This Agreement applies on each day during the term of the Agreement that one of the water rights decreed to the Ditch and listed in paragraph 2.4 below is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, each Subdistrict will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right decreed to the Ditch will be calculated each day that water right is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Company and the Subdistricts will keep a running total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert pursuant to the calling water right, but for the depletions caused by wells operating under each Subdistrict's ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in each Subdistrict's ARP as approved by the State and Division Engineers. The actual amount of injurious depletions to the water rights decreed to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by the Subdistricts with actual water:

Priority No.	Amount (c.f.s.)
141	245.0

On such days the amount of water that must be provided by the Subdistricts to replace the injurious stream depletions to the calling water right decreed to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by each Subdistrict calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

3. Payment. Each Subdistrict will pay the Company $ 50 per acre-foot of remedy of injurious stream depletions caused by that Subdistrict's wells that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in each Subdistrict's ARP, and not later than July 1st, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the water rights decreed to the Ditch would have been able to divert if all unreplaced injurious depletions to those water rights had been replaced during the term of this Agreement, and provide the Company with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Company will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Company with an accounting of the unreplaced injurious depletions to the water rights of the Company decreed to the Ditch and the amount of the payment due, but not later than August 4th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Company under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights decreed to the Ditch. Under this Agreement the Company will continue to call for all water legally and physically available for diversion under its water rights decreed to the Ditch. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Company will not require the Subdistrict to make actual water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistrict under their individual ARPs.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. To Subdistrict No. 3 and Subdistrict No. 6:
Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101
amber@rgwcd.org
(719) 589-6301 ext. 1841

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Company's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Company's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to require the Subdistricts to pay the Company for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Company or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date

for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Company and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Company may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Company, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The Parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Company and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00. If the Agreement includes all Subdistricts, the total bonus will be $600.00 over the term of the Agreement

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 for each year of the term of the Agreement. The total annual bonus payment will be $900.00 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $900.00 for a total of $2,700.00 paid over the term of the Agreement

8.01.03 If this agreement is for a term of five years, the bonus payment will be $500 for each year of the term of the agreement. The total annual bonus payment will be $2,500 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $1,500.00 for a total of $7,500.00 paid over the term of the Agreement.

8.01.04 If this agreement is for a term of 10 years, the bonus payment will be $1,000 for each year of the term of the agreement. The total annual bonus payment will be $10,000 paid over the term of the Agreement. If the Agreement includes all Subdistricts, the total annual bonus payment will be $3,000.00 for a total of $30,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by the Subdistricts regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Company on or before December 31st of each year for the term of the Agreement.

FORBEARANCE AGREEMENT

This Forbearance Agreement is entered into effective May 1, 2023 between Teodoro No. 1 ("Ditch") and the following Water Activity Enterprises of the Rio Grande Water Conservation District, (sometimes collectively referred to as the "Parties"):

Please initial next to your selections:

RR D.S. Water Activity Enterprise of Special Improvement District No. 3 "Subdistrict No. 3"

RR D.S. Water Activity Enterprise of Special Improvement District No. 6 "Subdistrict No. 6"

RECITALS

A. The Owner owns and operates the Teodoro No. 1 Ditch and the water rights decreed thereto. The Teodoro No. 1 Ditch diverts water from the Rio San Antonio in the NE1/4SW1/4 of Section 25, Township 33 North, Range 9 East, N.M.P.M. in Conejos County, Colorado, and has decreed priorities totaling 4.0 c.f.s.

B. The Subdistricts are responsible for implementing their respective Plans of Water Management ("Plan") through their respective Annual Replacement Plans ("ARP"), as approved by the State Engineer.

C. The quantity of water available for diversion from the Rio San Antonio by the Ditch may be reduced by the stream depletions caused by wells that are covered by the ARPs. Without this Agreement, the Subdistricts would make replacement water available for diversion by the water rights decreed to the Ditch at the top of the Stream Reach in order to remedy injurious stream depletions.

D. The Ditch, acting through its members and/or governing body is willing to enter into this Agreement as an agreement of the type contemplated by section 37-92-501(4)(b)(I)(B), C.R.S., pursuant to which injury to the Ditch's water right is remedied by means other than providing water to replace injurious stream depletions.

E. The Subdistricts desire to enter into this Forbearance Agreement as part of the ARP for all ARP Plan Years in which this agreement is in effect.

AGREEMENT

In consideration of the foregoing recitals, the mutual promises contained herein, and other good and valuable consideration, the Subdistrict and the Owner agree as follows:

1. **Term of Agreement**. This Agreement will be in effect from:

Please initial next to your selection:

_____ One Year (May 1, 2023 through April 30, 2024)

_____ Three Years (May 1, 2023 through April 30, 2026)

_____ Five Years (May 1, 2023 through April 30, 2028)

__X__ Ten Years (May 1, 2023 through April 30, 2033)

If a ten-year term is selected, the Ditch may review its forbearance price no sooner than five years following the first date the agreement is included in an ARP. If the Ditch requests a change in the price, the Subdistrict reserves the right to not accept that amount and if not accepted the forbearance will end on April 30th of that ARP Year in which the price increase was requested. If a new rate is accepted by the Subdistrict, that rate will become effective on the first May 1st following the date the new price was accepted by the Subdistrict.

For a five-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

For a ten-year Agreement, the Ditch or Subdistrict may request to cancel the Agreement after providing the other party notice of the request to cancel the Agreement. The canceling party must provide at least 3 years notice prior to the date they want the Agreement to end.

2. **Forbearance by the Ditch.**

2.1. During the term of this Agreement, the Ditch will forebear from requiring the Subdistricts to replace any of the injurious stream depletions to the water rights of the Owner diverted from the Rio San Antonio at the headgate of the Ditch under priority nos. listed in paragraph 2.4 below by supplying water to the top of the affected Stream Reach. Instead, the Subdistricts will remedy injurious stream depletions under this Agreement, in their sole and individual discretion, as long as forbearance is allowed by the Colorado Division of Water Resources.

2.2. This Agreement applies on each day during the term of the Agreement that the Ditch is the calling water right, except as provided in paragraph 2.4 below. The calling water right each day will be deemed to be the last priority served on that day as identified in the Preliminary Conejos Daily Report ("Daily Report") prepared and issued by the Colorado Division of Water Resources. On days when no Daily Report is issued, the parties will use the last priority served from the most recent Daily Report until a new Daily Report is issued.

2.3. The number of acre-feet of injurious depletions to the water right of the Ditch will be calculated each day the Ditch is the calling water right, in whole or in part, and injurious depletions are not remedied by the Subdistricts providing replacement water to the top of the affected Stream Reach, and both the Ditch and the Subdistricts will keep a running

total of said depletions. The daily injurious depletions in acre-feet will be the amount of water that the Ditch would have been able to divert, but for the depletions caused by wells operating under the Subdistricts' respective ARP. The maximum rate of daily depletions will initially be determined by dividing the number of days in the month into the estimated monthly stream depletions to the affected Stream Reach as contained in the Subdistricts' 2020, 2021 and 2022 ARPs as approved by the State and Division Engineers. The actual amount of injurious depletions to the Ditch during the term of this Agreement will be determined pursuant to paragraph 3.2 below.

2.4. This Agreement will apply only on days when the following priorities decreed to the Ditch are the last priority served and the injurious depletions are not remedied by actual water:

Teodoro Ditch No. 1

Priority No.	Amount (c.f.s.)	% of Priority Being Forbeared
148	4.0	100%

On such days the amount of water that must be provided by the Subdistrict to replace the injurious stream depletions to the Ditch is the lesser of either (1) the daily rate of stream depletions otherwise required to be replaced by the Subdistricts calculated in accordance with paragraph 2.3, or (2) the amount of water necessary to allow the Ditch to divert the full amount of last priority served on that day.

2.5 This Agreement will only apply to that portion of the priority listed in paragraph 2.4 above which is owned by the Owners. The Owners agree they will not divert any water released by the Subdistrict as a remedy of the injury to the remaining owners of the priorities listed in paragraph 2.4 above at any time this Agreement is in effect. The Owners acknowledge that neither the Division Engineer nor the Subdistricts have any responsibility for distribution of water within the Ditch. If ownership of the amount of water forbeared cannot be established, or is challenged by another owner of the ditch, the Division Engineer may require that the Subdistrict not operate under this Agreement until the ownership issue is resolved. If operation of this Agreement results in injury to the remaining owners of the Ditch, the Division Engineer may require that the Subdistrict not operate this Agreement and remedy all injurious depletions by providing water at the top of the affected Stream Reach.

3. Payment. The Subdistricts will pay the Owner $ 30 per acre-foot of remedy of injurious stream depletions that are not required to be made available at the top of the Stream Reach pursuant to the terms of this Agreement.

3.1. Following the end of each irrigation season in which this Agreement was included in the Subdistrict's ARPs, and not later than March 15, the Subdistricts will recalculate the injurious stream depletions in accordance with the requirements of each ARP. The Subdistricts will then calculate the amount of water that the Ditch would have been able to divert if all unreplaced injurious depletions to the Ditch had been replaced during the term of this

Agreement, and provide the Ditch with (1) a full accounting showing the unreplaced injurious depletions to the water rights of the Ditch; and (2) a calculation of the amount of the payment due under paragraph 3.2 below. The Ditch will have fourteen days after the receipt of the calculations to notify the Subdistricts of any errors therein.

3.2. The payment required by paragraph 3 will be due within 35 days of the date the Subdistricts provide the Ditch with an accounting of the unreplaced injurious depletions to the water rights of the Ditch and the amount of the payment due, but not later than April 15th.

4. No Subordination or Waiver of Right to Call. The forbearance by the Ditch under this Agreement is not a subordination of its water rights to any junior water rights, and is not an agreement to reduce the call of its water rights on the Ditch. Under this Agreement the Ditch will continue to call for all water legally and physically available for diversion under its water rights. Pursuant to section 37-92-501(4)(b)(I)(B), C.R.S., during the term of this Agreement the Ditch will not require the Subdistricts to make water available for diversion at the headgate of the Ditch to offset depletions that would otherwise have to be replaced by the Subdistricts under their respective 2020, 2021 and 2022 Annual Replacement Plans.

5. Notice. All notices and other communications that are required or permitted to be given to the Parties under this Agreement shall be sufficient in all respects if given in writing and delivered in person, by express courier, or by First Class U.S. Mail, postage prepaid. Notice delivered in person or by courier shall be effective upon such delivery; notice provided through U.S. Mail shall be effective three days after deposit in the U.S. Mail. Notice shall be given to the receiving party at the following addresses:

To Ditch: Teodoro Ditch No. 1
Donald Sandoval –
Ronald Reel –

Address for each

To the Subdistricts:

District Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Such addresses may be changed during the term of this Agreement by written notice given in accordance with this paragraph.

6. Remedies. In the event of Ditch's default in the performance of this Agreement, the Subdistricts' remedies will include, but not be limited to, the remedy of specific performance. In the event of the Subdistricts' default hereunder, Ditch's remedies will be to retain all payments made by the Subdistricts prior to the date of the default, to require full replacement of all injurious stream depletions from and after the date of default by the Subdistricts, and to

require the Subdistricts to pay the Ditch for all unreplaced injurious depletions not paid for in accordance with the terms of this Agreement.

7. Miscellaneous Provisions.

7.1. Entire Agreement. This Agreement constitutes the entire agreement between the Parties with respect to the subject matter and supersedes all prior agreements and understandings, written or oral, with respect to the subject matter. Except for those that are set forth in this Agreement, no representations, warranties, or agreements have been made by the Ditch or the Subdistricts to one another with respect to this Agreement.

7.2. Survival. Each of the representations and warranties made by the Parties in this Agreement, or in any document or instrument delivered pursuant to this Agreement, must be true and correct in all material respects on the date hereof, and are be deemed to be made again as and at the date of any payment date, and must then be true and correct in all material respects.

7.3. Amendment - Interpretation. This Agreement cannot be modified orally, but only by an amendment in writing signed by the Parties. The captions of this Agreement are for convenience of reference only, are not a part of this Agreement, and do not define or limit any of the terms of this Agreement. Any exhibits to this Agreement are incorporated into the Agreement. Unless the context clearly requires otherwise, the singular includes the plural, and vice versa, and the masculine, feminine, and neuter adjectives include one another. If any date for any action under this Agreement falls on a Saturday, Sunday or a day that is a "holiday" as such term is defined in Colo.R.Civ.P. 6, then the relevant date will be extended automatically until the next business day.

7.4. Non-Severability- Effect of Invalidity. Each paragraph in this Agreement is intertwined with the others and is not severable unless by mutual consent of the Owner and the Subdistricts. If any portion of this Agreement is held invalid or unenforceable for any reason by a Court of competent jurisdiction as to any party or as to all Parties, the entire Agreement will terminate.

7.5. Waiver. The failure of a party to insist in one or more cases upon the strict observation of any of the terms of this Agreement is not a waiver or relinquishment, in any future case, of any of the terms of this Agreement.

7.6. Binding Effect and Assignability. This Agreement and the rights and obligations created hereby are binding upon and inure to the benefit of the Parties hereto and their respective heirs, successors, and assigns, if any. The Ditch may not assign its rights or delegate its duties hereunder without the prior written consent of the Subdistricts, which consent shall not be unreasonably withheld. The Subdistricts may not assign its rights hereunder to any other person or entity without the prior written consent of the Owner, which consent must not be unreasonably withheld.

7.7. Governing Law and Venue. This Agreement is governed by the laws of the State of Colorado in all respects, including matters of validity, construction, performance, and enforcement. Venue on any action arising out of this Agreement will be proper only in the District Court of Alamosa County, State of Colorado.

7.8. Third-Party Rights. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies whatsoever upon any person or entity, other than the Parties hereto, and their respective heirs, successors, and assigns.

7.9. Time. Time is of the essence in this Agreement.

7.10. Joint Draft. The parties, with each having the opportunity to seek the advice of legal counsel and each having an equal opportunity to contribute to its content, draft this Agreement jointly.

7.11. Covenant. This Agreement touches and concerns the real property that is subject to this Agreement and will bind any future owners of the water rights for the length of the Agreement but will have no force or effect after the expiration of this Agreement.

8. Bonus Payment.

8.01 The Subdistricts, in recognition of the cooperation of the Ditch and its individual members in the ongoing efforts by the Subdistricts to protect the agricultural economy of the San Luis Valley, hereby include a bonus payment to the Ditch in the amount of:

8.01.01 If this Agreement is for a term of one year, the bonus payment will be $200.00 from each Subdistrict selected above. If the Agreement includes both Subdistricts, the total bonus will be $400.00 over the term of the Agreement.

8.01.02 If this Agreement is for a term of three years, the bonus payment will be $300.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $600.00 for a total of $1,800.00 paid over the term of the Agreement.

8.01.03 If this Agreement is for a term of five years, the bonus payment will be $500.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $1,000.00 for a total of $5,000.00 paid over the term of the Agreement.

8.01.04 If this Agreement is for a term of ten years, the bonus payment will be $1,000.00 from each Subdistrict selected above for each year of the term of the Agreement. If the Agreement includes both Subdistricts, the total annual bonus payment will be $2,000.00 for a total of $20,000.00 paid over the term of the Agreement.

8.02 The Bonus payment in this Paragraph 8 will be paid by each Subdistrict regardless of whether there is any payment due for forbearance, as calculated in paragraphs 2 and 3 above, and will be in addition to any such calculated payment.

8.03 The Bonus Payments will be paid to the Ditch on or before December 31, of each ARP year for the term of the Agreement.

Alamosa, Colorado 81101

Re: 2026-2027 Allocation of Conejos Share of Closed Basin Project Production

Dear Cleave:

I am writing on behalf of the Conejos Water Conservancy District to advise you how the District intends to allocate its share of Closed Basin Project Production for the period of January 1, 2026, through April 30, 2027. As you know, under the Resolution Regarding Allocation of the Yield of the Closed Basin Project the Conejos is entitled to an average of 40% of the annual usable yield of the Closed Basin Project.

The Water Users intend to use 40% of the Project's usable yield in 2026 and will likely use 40% in 2027.

The Board of Directors of the CWCD has reviewed the needs of the Special Improvement Districts numbers 3 and 6 of the Rio Grande Water Conservation District ("Subdistricts") for water to replace stream depletions under their Annual Replacement Plans. In light of the importance of the Subdistricts being able to meet their replacement requirements in this coming ARP Year's operations, the CWCD Board voted to specifically allocate the Conejos's share of the usable yield of the Closed Basin Project to replace the stream depletions under the respective Subdistricts 2026 Annual Replacement Plans.

The CWCD anticipates that the vast majority of this project Water will be used to replace non-irrigation season depletions from November 1 through March 31. While this water will be delivered to the Rio Grande both before, during, and perhaps after the non-irrigation season, the CWCD understands that the Division Engineer has agreed that this water replacement can be delivered at such times and will be credited to non-irrigation season depletions. The CWCD believes Closed Basin Project Water is an appropriate replacement source, but intend that the use of the allocation described herein be minimized during the irrigation season.

This allocation to the Subdistricts covers parts of two calendar years. The CWCD wishes to make clear to the Subdistricts that this allocation is made on a one-time basis and is not a precedent that binds the CWCD, and that the CWCD has no duty to make a similar allocation in the future. The Rio Grande Water Conservation District should understand this as well, and should not assume that the CWCD will make a similar allocation in the future.

If you have any questions about this matter, please give me a call.

Sincerely,

Nathan Coombs, Manager CWCD

The Rio Grande Water Users Association

Alamosa, Colorado 81101

Re: 2026-2027 Allocation of Rio Grande's Share of Closed Basin Project Production

Dear Amber:

I am writing on behalf of the Rio Grande Water Users Association ("Water Users") to advise you how the Water Users have agreed to allocate a portion of its share of Closed Basin Project Production for the period of January 1, 2026 through April 30, 2027. As you know, under the Resolution Regarding Allocation of the Yield of the Closed Basin Project the Rio Grande is entitled to an average of 60% of the annual usable yield of the Closed Basin Project. The Water Users intend to use 60% of the Project's usable yield in 2026.

The Board of Directors of the Water Users has discussed the needs of the Special Improvement Districts of the Rio Grande Water Conservation District ("Subdistricts") for water to replace stream depletions from groundwater pumping under their Annual Replacement Plans. In light of the importance of the Subdistricts being able to meet their replacement requirements in this coming ARP year's operations, the Water Users' Board voted to specifically allocate up to 3,900 acre-feet of the Rio Grande's share of the usable yield of the Closed Basin Project to replace the stream depletions under the Subdistricts 2026 Annual Replacement Plans.

The Water Users anticipate that the vast majority of this Project Water will be used to replace non-irrigation season depletions from November 1 through March 31. If Subdistrict No. 5 has an approved ARP, part of the water will be used to replace year-round depletions to the Rio Grande from Subdistrict No. 5. The Water Users understand that there may be circumstances during the irrigation season when the Subdistricts cannot deliver water to the Rio Grande below the Chicago Ditch due to intervening dry stream

reaches or excessive losses in deliveries. In those circumstances, the Water Users believe Project Water is an appropriate replacement source but intend that the use of the allocation described herein be minimized during the irrigation season.

This allocation to the Subdistricts covers parts of two calendar years. The amount of about 1,700 acre-feet is allocated for replacement by December 31, 2026, and will come from the Rio Grande's 2026 share of the Project's usable yield. The remainder of about 2,200 acre-feet is allocated for replacements from January 1 through April 30, 2027, the end of the Subdistricts 2026-2027 Annual Replacement Plan Year. The amount of the allocation used during January 1 through April 30, 2027, will come from the Rio Grande's share of Project production in 2027. Although these annual allocations are estimates, in no way should the allocation in the calendar year exceed the Rio Grande's total share of the Project's useable yield for that year.

The Board of the Water Users wishes to make clear to the Subdistricts and to the members of the Water Users that this allocation is made on a one-time basis and is not a precedent that binds the Water Users, and that the Water Users have no duty to make a similar allocation in the future. The Rio Grande Water Conservation District should understand this as well and should not assume that the Water Users will make a similar allocation in the future.

If you have any questions about this matter, please give me a call.

Sincerely,

Greg Higel, President
Rio Grande Water Users Association

Heather@slvwcd.org

April 7, 2026

Amber Pacheco, Deputy General Manager
Rio Grande Water Conservation District
8805 Independence Way
Alamosa, CO 81101

Dear Ms. Pacheco,

The Board of the San Luis Valley Water Conservancy District (SLVWCD) approves the request by the Rio Grande Water Conservation District (RGWCD) to allocate a portion of the Rio Grande's share of 2026 and 2027 Closed Basin Project (CBP) production to Subdistricts' stream depletions for inclusion in Annual Replacement Plans (ARPs). The allocation of water to ARPs cannot in any way affect the allocation of CBP flows to the Rio Grande and Conejos River's Compact Obligations, which in 2026 is 60%/40%, respectively.

In accordance with the 60/40 Agreement, the Rio Grande Water Users Association (RGWUA) approves any allocation of the Rio Grande's share of CBP production, with consultation from the SLVWCD. Given the SLVWCD's role in this matter, the Board held an extensive discussion of the CBP at its March 2026 meeting; Nate Reynolds from the Bureau of Reclamation updated the SLVWCD Board on the history of the CBP, the status of well pumping, and groundwater levels within the CBP footprint and the larger unconfined aquifer. Following this presentation, the SLVWCD Board discussed the matter at length and noted that the CBP has always been and continues to be a debated project within complicated hydrologic and socio-political forces.

The SLVWCD Board wishes to share the following points of discussion on the matter:

- The CBP has merits in reducing Compact curtailment and assisting Subdistricts in replacing stream depletions, but that those two values sometimes conflict.
- If the CBP wasn't in operation, water would come from other sources to satisfy the above referenced needs and acquiring additional water from currently unknown sources would include tradeoffs that can't fully be understood.
- Significant changes in hydrology, water management directives, and community relationships have occurred since the creation of the 60/40 agreement. These changes should be considered with regard to the continued operations of the CBP and the applicability of the 60/40 agreement to present day.

President: Tyler Neely, Del Norte, CO
Vice-President: Darius Allen, Alamosa, CO; Secretary/Treasurer Marcie Schulz, Alamosa, CO;
Directors: Richard Davie, Del Norte, CO; M. Dee Greeman, Alamosa, CO; Charles Griego, Alamosa, CO;
Will Hathaway, Monte Vista, CO; Steve Keller, Monte Vista, CO; Randall Palmgren, Center, CO; Tuck Slane, Hooper, CO.

- The CBP pumping interacts with the unconfined aquifer in the Closed Basin. As such, the effects of the CBP pumping are most closely tied to Subdistrict 1's aquifer sustainability, while a portion of CBP water is allocated to all Subdistricts.
- The CBP is a source of contention in the San Luis Valley and the SLVWCD believes it is important to listen to and consider concerns raised by all our neighbors about the CBP.

Due to these complexities, the SLVWCD encourages all parties to engage in detailed and regular discussions about the CBP to ensure its operation remains relevant. Thank you for your consideration of the SLVWCD's feedback.

Sincerely,

Heather R. Dutton

APPENDIX I

Centennial Ditch Company Resolution

March 16, 2026

RGWCD SPECIAL IMPROVEMENT DISTRICT NO. 2, 3 AND 6 AND CENTENNIAL DITCH COMPANY RESOLUTION

Whereas: Rio Grande Water Conservation District staff have presented the Board of Directors of the Centennial Ditch Company with a request to allow the Centennial Ditch to be used as a carrier for replacement water under Subdistrict Nos. 2, 3 and 6's Annual Replacement Plan.

Whereas: The reason for this request, that there can be times when there is a dry reach in the Rio Grande when the Excelsior Ditch is sweeping the river. This may occur when the Excelsior Ditch is the calling priority on the Rio Grande and there is no Rio Grande Compact call.

Whereas: Under these conditions, the Rio Grande may be dry below the Excelsior Ditch headgate. In this circumstance it would be difficult to meet its replacement obligations under the Annual Replacement Plans to replace injurious depletions below the Excelsior Ditch and extending to the Lobatos gaging station with releases from upstream reservoirs.

Whereas: If the Centennial Ditch allows Subdistrict Nos. 2, 3 and 6 to convey water through the ditch, around the dry reach below the Excelsior and back into the Rio Grande, they can replace injurious depletions without the high losses that would occur trying to force water through the dry reach.

Whereas: The number of days it would be necessary to convey water through the Centennial Ditch during the irrigation season will depend on the calling priority on any given day, the amount of water in the Rio Grande available for diversion and Rio Grande Compact administration.

Whereas: The District, through Subdistrict Nos. 2, 3 and 6, has offered compensation to the Centennial Ditch Company for this occasional use of the Centennial Ditch which the Board of Directors found acceptable.

Whereas: Subdistrict Nos. 2, 3 and 6 shall provide the appropriate measuring devices under the direction of the Division Engineer to make the necessary measurements for the use of the Centennial Ditch in the manner.

Whereas: Subdistrict Nos. 2, 3 and 6 shall provide the water to be carried for replacing depletions to the headgate of the Centennial Ditch as well as all transit losses occurred through evaporation and seepage to this water as it passes through the Centennial Ditch.

Whereas: Subdistrict Nos. 2, 3 and 6 shall provide accounting subject to the reasonable acceptance of the Centennial Ditch Board of Directors and the Division Engineer.

Whereas: The Centennial Ditch Company assumes no liability for actions of Subdistrict Nos. 2, 3 and 6 and by accepting this proposal does not commit or guarantee any future agreements with these subdistricts. Unless extended by mutual agreement of Subdistrict Nos. 2, 3 and 6 and the Centennial Ditch Company, this agreement will end April 30, 2027.

Whereas: The Centennial Ditch Company will make all reasonable efforts to deliver/transfer replacement water for well depletions from Subdistrict Nos. 2, 3 and 6 well pumping through the Centennial Ditch system as efficiently as possible and on a timely basis as required by Subdistrict Nos. 2, 3 and 6 to comply with the Annual Replacement Plans.

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the Centennial Ditch Company authorizes to allow Subdistrict Nos. 2, 3 and 6 of the Rio Grande Water Conservation District to convey water through the Centennial Ditch to replace injurious depletions under the Annual Replacement Plan and subject to the terms set forth above. The Centennial Ditch Company and Subdistrict Nos. 2, 3 and 6 will work together to accomplish the terms of this agreement.

BE IT FURTHER RESOLVED that President of the Board Gerald Ziegler is hereby authorized and empowered to execute in the name of the Board of Directors of the Centennial Ditch Company approval of this agreement.

The forgoing resolution was passed by the Board of Directors of the Centennial Ditch Company this 25 day of Nov, ~~2026.~~ 2025

ATTEST:

Signed: _____ Date: 3/23/2026

APPENDIX J

Five Year Average Groundwater Withdrawals in Confined Aquifer Response Areas in Division No. 3; July Requirement of Division Groundwater Rules Section 8.1.5, Dated July 1, 2025

COLORADO
Division of Water Resources
Department of Natural Resources

MEMORANDUM

TO: San Luis Valley Notification List

FROM: CDWR Modeling and Decision Support System Team
Office of the Colorado State Engineer

DATE: July 1, 2025

SUBJECT: Five Year Average Groundwater Withdrawals in Confined Aquifer Response Areas in Division 3:
July 2025 Requirement of Division 3 Groundwater Rules Section 8.1.5

Below is the table listing the metered total annual withdrawals beginning in 2014 and the 5-year (2020 – 2024) average of the metered total annual withdrawals for the previous five Water Administration Years for the Response Areas subject to Rule 8.1.5. The last column is the estimated average groundwater withdrawal for the period 1978 – 2000 period.

Response Area	Metered Groundwater Withdrawals (AF)											5-Years Average GW Withdrawal (2020 – 2024)	Average GW Withdrawal (1978 – 2000)
	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024		
Alamosa / La Jara	93,677	86,657	83,310	75,589	116,065	70,647	105,959	101,742	97,171	90,766	83,119	95,751	103,406
Conejos	33,324	25,845	25,308	21,353	35,842	16,323	34,745	26,033	25,253	27,176	23,961	27,434	23,018

Note: Total Response Area withdrawals data through 2023 are adjusted/updated due to HBDMC data updates

APPENDIX K

Water Levels of Wells Used to Generate Conejos Response Area Composite Water Head

MEMORANDUM

TO: San Luis Valley Notification List

FROM: DWR Modeling and Decision Support System Team
Office of the Colorado State Engineer

DATE: July 1, 2025

SUBJECT: Composite Water Head for Confined Aquifer Response Areas in Division 3: July 2025 Requirement of Division 3 Groundwater Rules Section 8.1.4

This memorandum is submitted to comply with Section 8.1.4 of the Division 3 Groundwater Rules which states that:

> *No later than July 1 of each year after 2015, the State Engineer must update the Composite Water Head for each of the Response Areas subject to this Rule 8.1 for the areas depicted in Exhibit C to reflect the most recent annual water level measurements collected during February and March (outside of the Irrigation Season) and display the update in graph form.*

Water levels were collected by the Rio Grande Water Conservation District (RGWCD), the US Geological Survey (USGS), and the Colorado Division of Water Resources (DWR) during the non-irrigation season from monitoring network wells identified by DWR[1]. Monitoring network wells are listed in Table 1.

The water level data from the monitoring wells are briefly discussed in the following section. Monitoring well data and composite water head calculations are summarized by individual year in Table 2. As detailed in a memo describing the monitoring plan[2], the composite water head is calculated as a change in water level from the 2015-year baseline. The annual composite water head for each of the confined aquifer response areas through the current year 2025 is shown in Table 3 and Figure 1.

[1] Kelley Thompson (DWR Modeling/DSS), May 6, 2015, "Ground Water Sustainability Rules for Water Division 3: Identification of Proposed Monitoring Network Wells", Memorandum to Dick Wolfe (Colorado State Engineer/DWR Director) and Mike Sullivan (DWR Deputy State Engineer)

[2] Kelley Thompson and Mary Halstead (DWR Modeling/DSS), May 6, 2015, "Ground Water Sustainability Rules for Water Division 3: Confined Aquifer Monitoring Plan", Memorandum to Dick Wolfe (Colorado State Engineer/DWR Director) and Mike Sullivan (DWR Deputy State Engineer)

Discussion of Monitoring Well Data

Per the Division 3 Groundwater Rules, the minimum depth to water (maximum water level) in the months of February and March is used to establish the annual water level measurement for each well. However, if reliable data are not available for the well in February or March, the minimum depth to water from November of the prior year through May is used (if available). In some cases, the RGWCD well database includes different estimates on the same day from the USGS and the RGWCD and in this case the RGWCD data are used. Some historical data have been revised and the composite head for past years was revised accordingly. Particularly, data for the BACA wells DW-1, DW-3, DW-4, and DW-5 were recently revised by the USGS which stabilized water level patterns in those wells. Several data have not been used due to specific recommendations or identification of bad measurements. For example, for well ALA4 on the Alamosa Wildlife Refuge, the December 2023 measurement was used for the composite head estimate as the RGWCD advised that pumping initiated before the March 2024 measurement.

Good water level measurements in November through May have not been available for several years for several wells that are considered in the composite water head estimate. In years with missing well data, the composite water head is recalculated such that the change in head from baseline for the missing wells is assumed to be the same as the composite water head for the remaining wells. Wells that have had missing data are shown in Table 4.

2015 Baseline Water Levels

Most 2015 measurements were taken in February and March. Water levels from BACA wells DW-4 and DW-5 were measured by the USGS in May (the unrevised 2014 data remain bad), and two other wells were measured by the USGS in January. Transducer issues limited measurement from Well RGDSS P03 until April, and a graph of the well data suggests the April data is not representative of maximum water levels in the non-irrigation season. The well is located very close to well CON2, and the minimum depth to water in CON2 was nearly identical between 2014 and 2015. Therefore, the baseline water level in RGDSS P03 for use in the composite water head was assumed equal to the maximum non-irrigation season water level in 2014.

2025 Water Levels

Water level measurements for several wells were not available from the 2025 non-irrigation season as of July 1. Three wells (6192R, 11010F, and 1725R) were not measured by the USGS due to funding issues. Well ALA 12 was under water and could not be measured, wells SAG13 and SAG18 have property access issues that have prevented measurement, and a measurement for SAG3 during the non-irrigation season was not available. As of July 1, data from the non-irrigation season were not available for RGDSS wells P1, P3, P7, P8, and P14 which are pressurized and are measured by transducers with dataloggers. It is anticipated that these data will become available later and that the 2025 composite water head will be revised with any additional or revised data.

Table 2. Column Calculation Notes

(a) Thiessen weight = Thiessen polygon area / total polygon areas for Response Area (rounded to 5 digits)
(b) minimum annual depth to water during non-irrigation season for 2015 baseline year (minimum DTW in February-March or progressively in other months if February/March DTW not available)
(c) minimum annual depth to water during non-irrigation season for year (minimum DTW in February-March or progressively in other months if February/March DTW not available)
(d) date of minimum annual depth to water during non-irrigation season measurement
(e) change in depth to water calculated as baseline depth to water less year depth to water (a negative value indicates a falling water table)
(f) change in depth to water multiplied by Thiessen weight used in calculation of composite water head. The composite water head for a Response Area equals the sum of these values divided by the sum of Thiessen weights of wells with data by Response Area for the year.

Table 3. Composite Water Head by Response Area

Response Area	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
